MOB MENACES U. S. CONSUL

PREPARE OR PAY LIVES, MONEY: GEN. SUMMERALL

Warning in Camp Grant Interview.

BY JAMES O'DONNELL BENNETT.
(Picture on back page.)

Camp Grant, Ill., Aug. 8.—[Special.]—The chief of staff of the United States army, Gen. Charles P. Summerall, said today that reasonable preparedness would have saved this country two-thirds of the money "and a great deal of the treasure in life" that it spent in the world war.

"Through ignorance," he continued, "the presence of a distinguished company of officers," of the elements of preparation for war we did not fit men in war. We unfitted them for war.

"The Germans were nearly correct in their estimate of our unpreparedness. They thought they could beat the allies before we could come in—and they came very near doing it."

"Unfitted Men for War."
"We unfitted men for war because we put them out in the fields like brute beasts. There they were weakened not strengthened for war. In many cases they caught pneumonia and died. This happened in a country teeming with money where men could have been properly quartered."

"I am not in favor of billeting soldiers in the houses of citizens without compensation, but I hope some day to see the provision which forbids billeting taken out of the constitution of the United States."

Another innovation the chief of staff proposed is the establishment in American colleges of courses on peace and how to retain it.

"The science of war," he said, "is taught. The more exacting science of peace is not taught. It never has been. It has not even been developed into a science."

Reviews 8,000 Troops.
Gen. Summerall arrived in Chicago from Washington this morning to review 8,000 troops of the Illinois National Guard now in training at Camp Grant. He was escorted from Chicago to the camp by a band of notable musicians. Gen. William L. Hays, commander of the sixth corps area; Gen. Milton Foreman, former commander of the 33d division, Col. Charles J. Kraft, Col. George Nixon, Col. Thomas R. Gownlock, Maj. Hays McFarland, and R. E. Sunney.

After the review Gen. Summerall said he found the condition of the 33d division such as to justify the official opinion made to obtain land near Camp Grant for an artillery range. It is a vital need, because at present the artillery and infantry of the division cannot be trained together. "This," said Gen. Foreman, "is not only for the difficulties of our troops in the world war was that infantry and artillery often did not understand each other's limitations and problems."

Will Take Large Tract.
The land required for an artillery range will cut into a rural region near Camp Grant and Camp Grant for a length of nearly four miles.

During many minutes of the ride from Chicago to Camp Grant Gen. Summerall, whose commands in France were the first division and then the fifth army corps, spoke with such urgency on military preparedness that officers who had observed in war-torn France the capacity for work and the genius for making others work, exclaimed, "This is the same man who led weary soldiers used to say: 'Well, it is better to be driven by Summerall than by the Germans.'"

Tells Wastes and Follies.
The chief of staff's theme was the waste and the follies suffered in 1917 and the lack of military preparedness and the danger of their repetition in the crisis unless the present national defense system is loyally and intelligently sustained.

"I do not mean," said Gen. Summerall, "unless it is sustained by the army and men whom it now is training. They are sustaining it. They are more than their share. I mean sustained by the great industries, by the states of the Union, and by the people generally."

"It is absurd that the army of this country should be thought of by the citizen as a separate caste. It is different to think of an American citizen as a hireling. He is not. He is a citizen."

"That is the way we treat him in war comes. That is the way we treat him in 1917 when we put him into the open fields to catch pneumonia. That is the way we treated him in 1918 when we put him into the open fields to catch typhoid. That is the way we put him into the open fields to catch typhoid."

COUNTY'S SHARE OF ROAD MONEY CALLED INSULT

State Is Cheating, Cermak Charges.

"Mr. Chicago Motorist, would you like to know where the money goes that you pay every year in state license fees?"

Anton J. Cermak, president of the county board, asked and answered the above inquiry yesterday.

"It goes to build roads for down-state politicians, while our own roads go to rot, unless we build and maintain them ourselves," he declared.

Figures Back Statement.
And he submitted figures in miles and dollars, as follows, to prove his statement:

"In seven years since 1920 Cook county motorists have paid into the state coffers \$23,447,152 in license fees for their automobiles. In those same years the state has given Cook county in return only 142.63 miles of roads, at an estimate cost of \$3,251,852."

"This shows more than \$200,000 of our money gone to build roads down-state. That great sum has been flched from our pockets and put where the political intrigues of Gov. Small want it to go. Why, it would be enough to build the roads that this county needs so badly!"

"Injury in Future."
"While Cook county has been doing out its pitance of 142.63 miles of roads the state outside the county, paying less than twice the taxes levied against our motorists, has given more than 4,000 miles of roads."

"And it is being worked against done, but it is being worked against more and more in the future. For under the new \$100,000,000 bond issue Gov. Small is building 4,837 miles of roads for downstate and only 248 miles for Cook county."

"Cook county is being taxed to death under a tyrannical governor. We are compelled to levy county taxes ourselves in order to build our badly needed thoroughfares, while Small is forcing us to pay for roads all over the state."

County Pays Third of All.
Following is a table, prepared by Secretary of State Louis L. Emmerson, showing the automobile vehicle taxes paid by Cook county since 1920, and by all other counties in the state combined:

Year	Cook county.	Outside.
1920	\$1,946,322	\$4,647,254
1921	2,013,788	4,782,998
1922	2,355,995	5,024,998
1923	2,598,150	5,490,187
1924	2,446,908	7,506,909
1925	2,788,890	5,186,864
1926	3,286,139	5,761,068
Total	\$23,447,152	\$45,964,711
Total in whole state	\$46,892,863	
Paid by Cook county	35 per cent	

The following table, prepared by Frank E. Firestein, chief engineer under Mayor George E. Quinn, county superintendent of highways, shows the mileage of hard roads in Cook county:

Miles.	Federal aid	State bond issue	County bond issue
1920	23.76	136.78	336.54
1921	23.76	136.78	336.54
1922	23.76	136.78	336.54
1923	23.76	136.78	336.54
1924	23.76	136.78	336.54
1925	23.76	136.78	336.54
1926	23.76	136.78	336.54
Total	142.63		

Cost to Illinois.
The cost of federal aid roads is shared equally by the state, so that the full mileage of Cook county roads paid for by the state is 126.75 miles under the bond issue, plus 11.88 miles, half of the federal aid system, a total of 142.63 miles. Of the 142.63 miles, a total of 54 miles was built by the county, which later was reimbursed in full by the state to the amount, \$1,237,612. Applying this cost to the full 142.63 miles it is shown that the complete cost to the state was \$3,251,852.

"There is still another count in Cook county's indictment of Gov. Small," President Cermak declared. "Under the law, the state is required to pay 10 per cent of the cost of roads built by counties under the state aid plan."

"We have been building roads under state aid, using our own tax money to do it, and expecting the state to refund its half share to us. But not one cent has come back, and our books show that the state owes us, under the state aid plan, a total of \$2,290,000."

"Sticks State Share."
"So while Small is taking our taxes to build roads for his political henchmen, and we are compelled to collect more taxes to build a few roads for ourselves, Small is not even paying the state's share of that, as required by law."

"He takes \$29,000,000 that should be ours, and he owes us \$2,290,000 besides! The curse of Small has risen to a terrible peak in Cook county! It is a disgrace!"

(Continued on page 4, column 1.)

A BREAKFAST TABLE DISCUSSION OF THE SACCO-VANZETTI CASE

"Henry, what does all this stuff about Sacco and Vanzetti mean? The papers are full of it."

"They're a couple of radicals who killed a couple of men in a pay roll holdup some place near Boston. The court has found them guilty and they're to be executed next Thursday."

"Well, if they are guilty, why all this hullabaloo?"

"I haven't followed the case very closely but I guess they had a fair trial and the jury found them guilty. Now all the radicals in the world are claiming the trial was unfair and that the judge was prejudiced and that the men are innocent. They're raising an awful row."

"But did they get a fair trial?"

"Sure. The governor has reviewed the case and he says the men were proven guilty. Also a committee of three prominent citizens, including the president of Harvard, has gone over the records and they say the judge gave Sacco and Vanzetti a fair, impartial trial and that they are guilty."

"But I read some place something—I don't know where—about the judge being prejudiced."

"Not on the bench, my dear. Only off the bench. It seems this same committee of prominent citizens had been guilty of a grave breach of official decorum off the bench."

"I guess so—I'm not very clear on that point."

"It doesn't seem consistent. How could he have been both at the same time?"

"Say, I told you I hadn't followed the case very closely. I only know that the jury found them guilty and they heard the testimony and they ought to know. They were in a position to know more about it than outsiders."

"But then why all this dreadful stuff about it?"

"The radicals all over the world are making the stew. They claim the men aren't guilty—that they're being executed because of their racial leanings. They're simply raising heaven and earth to prevent the execution."

FRENCH POLICE JAIL AMERICAN AFTER TAXI ROW
(Chicago Tribune Press Service.)

PARIS, Aug. 8.—The American embassy is investigating the case of Charles Herman Lerner, aged 43, of New York, who complained today that he had been arrested, maltreated and kept in jail the best part of Sunday night for no reason whatever.

Alighting from a taxi with his wife and three children at Gare St. Lazare, Mr. Lerner says he had the inevitable row with the chauffeur over the tip, but settled it to everybody's satisfaction.

Two minutes later, however, a red darme collar he and dragged him to a nearby substation where, Mr. Lerner says, a civilian police official struck him in the face repeatedly and subjected him to a shower of abuse. Later, he says, he was locked in a cell. He was released several hours later, and he has since complained to the embassy.

Two minutes later, however, a red darme collar he and dragged him to a nearby substation where, Mr. Lerner says, a civilian police official struck him in the face repeatedly and subjected him to a shower of abuse. Later, he says, he was locked in a cell. He was released several hours later, and he has since complained to the embassy.

FLAMES DAMAGE SCHOOLHOUSE; LAID TO 'FIRE BUG'
Fire, believed to have been of incendiary origin, damaged the Thomas Chalmers grammar school at Roosevelt road and South Fairfield avenue early this morning. Assistant City Prosecutor Nuncio Bonelli, who lives at 1261 South Elizabeth street, was shot and killed last night in a fight at 46th street and Gross avenue.

According to the report made to the police Kroll and two companions were battling with three opponents when one of the latter, later identified as Frank Croly, 4538 E. 12th street, drew a pistol and fired. One bullet struck Kroll in the chest, and he died as he was being taken to a hospital.

Croly and one of his friends, Albert Gutierrez, of 4530 South Laflin street, were taken into custody by Policemen O'Dell and Cuff.

Dealer Swings Golf Club and Strikes Girl in Head
A golf club swung in the hands of a dealer who was demonstrating its merits to a customer struck Miss Rose Arkin, 25 years old, 4828 North Central park avenue, 1538 the forehead yesterday afternoon, causing a possible fracture of the skull. George Silverstone, manager of a golf shop at Franklin and Adams street, was swinging the club when Miss Arkin stepped into the path of the swing. She was taken to the American hospital.

Act to Extend Outer Drive on North Side

Lincoln park commissioners yesterday authorized the spending of more than two million dollars to speed up traffic on the north shore and develop the 400 acres of land to be filled in the lake opposite the foot of Montrose avenue. The money to be expended represents the first third of the \$6,000,000 authorized by voters in the June election.

This action, according to President David H. Jackson, assumes the opening of the outer drive from Irving Park boulevard north to Montrose avenue by late fall. Specifications call for two 45-foot drives separated by a twelve-foot parkway with a small service drive paralleling them on the west.

Contracts were let for \$854,000 worth of grade separation viaducts and subways at Irving Park boulevard, Montrose and Buena avenues, similar to the one to be opened today at North avenue and Lake Shore drive.

Remove Crossing Tangles.
The grade separations are designed to remove tangles at important intersections. Through north and south traffic will pass over the 100 foot wide bridges. East and west traffic will go through the subways. A contract was also let for a smaller pedestrian and bridge path subway under Stockton drive at St. James place for \$61,000.

Although the grade separations may not be completed this fall the drive will be opened to Montrose avenue some time in November, Mr. Jackson said. The improvements in progress now will speed up traffic on the north shore at least five minutes, he declared.

Immediate construction of a 127,000 breakwater extension to Sunnyside avenue and \$287,000 worth of filling-in was ordered as the first step in building the new 400 acre playground on the lake. The commissioners' plan is to have the new shore line half a mile farther out ready for use by bathing beach in 1929. By that time the filling-in operations will have rendered useless the present city bathing beach on Clarendon avenue. A large pavilion will be constructed on the tip of the made land.

Open Drive and Animal House.
A dedicatory luncheon at the Lincoln Park refectory to which city and state leaders have been invited today will mark the opening of the separation of grades at North avenue and Lake Shore drive and the new \$284,000 house for small animals, which park officials declare is the world's finest. The house will be opened to the public at 2:30.

Apes and monkeys ranging in size from "Chilo," a 150 pound trained chimpanzee, to "Oscar," a tiny ring-tailed lemur, were installed yesterday in the new house, built on the line of a Grecian temple. Sharing it also is a choice collection of felines—pumas, leopards and panthers.

Storm Sweep New York.
New York, Aug. 8.—[Special.]—Four heavy rains swept over New York and the surrounding country tonight, flooding streets and impeding traffic. They were accompanied in New Jersey and Long Island by lightning, which destroyed six barns, and a windstorm of almost tornado proportions.

Loot Crystal Lake Home of Rags and Oil Paintings
Burglars early this morning ransacked the home of H. G. Herendson, retired floor manufacturer, at Crystal Lake, Ill., and escaped with fourteen oriental rugs and four oil paintings, all valued at \$15,000. They also took a \$5,000 automobile. Herendson, his son Joseph, 14, and his daughter Florence, 19, were asleep upstairs and did not hear the burglars, who obtained their loot from the first floor. The robbery was discovered by Mrs. Herendson when she returned home from a visit at 1:30 o'clock.

Sacco Rioters Subdued by French Police

BULLETIN.

PARIS, Aug. 8.—[Special.]—A mob of people demonstrating against the forthcoming execution of Sacco and Vanzetti is reported to have made a hostile move against the American consulate at Cherbourg last night. A dispatch states that the police had difficulty in defending the consulate from the fury of the crowd. A number of people were hurt on both sides.

(Chicago Tribune Press Service.)

CASA BLANCA, Morocco, Aug. 8.—The American flag above the American consulate here was torn down, desecrated, and burned to night by Sacco-Vanzetti sympathizers. The police intervened, a number of heads were broken, and many arrests were made.

BY HENRY WALES.
(Copyright, 1927, by The Chicago Tribune.)

PARIS, Aug. 8.—More than a score of police were injured and 100 manifestants were arrested in today's abortive general strike called by the communist unions in the Paris region to protest against the execution Thursday in Boston of Nicola Sacco and Bartolomeo Vanzetti.

Paris and its suburbs were treated to a miniature reign of terror tonight with the numerous manifestations ending in struggles with the police. Shots were fired in the Pantheon district when gendarmes essayed to keep the crowd of 4,000 manifestants within bounds.

One death resulted in the strike of dock workers in Havre.

Countless Riots Over Taxicabs.
Only 5 per cent of the workers on buses, trams and subways in Paris obeyed the strike order, but 60 per cent of the taxicab drivers went out. All day there were small riots as taxicabs and street cars were stoned and police were rushed to disperse the attacking parties.

Troops assembled in the Place de la Concorde broke up a manifestation by a couple of hundred Reds bent on marching to the American embassy. The guards at the consulate, chancellery, and embassy were trebled and temporary barracks were established at the Galliera museum in Avenue d'Enfer between the embassy and chancellery.

In France, outside Paris, from 20 to 30 per cent of factory workers were idle all day.

Legion Office Notes Protest.
The Paris office of the American Legion convention today took notice of the Sacco-Vanzetti protests.

Bowman Elder, chief of the convention committee called Howard Savage, national commander at Indianapolis, to call on the Paris headquarters had been begged by clemency petitions and addressed:

"I believe it is my duty to call your attention to the profound emotion the Sacco-Vanzetti death sentence has aroused among Parisians, who want the superior authorities to intervene to save the two men."

Upon the suggestion of M. Chiappe, prefect of police of the Seine district, the leading Paris papers will publish the telegram in full Tuesday, hoping to calm an attitude of hostility which might lead to unpleasant incidents at the Legionnaires convention.

European Protests Continue.
European cities today continued to stage Sacco-Vanzetti meetings, and American consulates continued to receive petitions.

A crowd of 15,000 in Stockholm, Sweden, was addressed by George Branning, one of the attorneys for the doomed men. Twenty thousand persons tried to storm the American legation, and many were hurt in fighting with the police.

Judge Thayer Declines to Object.
(Chicago Tribune Press Service.)

MEXICO CITY, Aug. 8.—The Mexican Federation of Labor resolved to (Continued on page 2, column 6.)

...today, preparations were made at the Charlestown state prison for the execution of Sacco, Vanzetti, and Celestino Madaleno early Thursday morning. Notices were sent out to the official witnesses. They are Dr. George Burgess Magrath, medical examiner of Suffolk county; Adm. Gen. Frank Williams of the Massachusetts National Guard; and Sheriff Charles Cullen of Norfolk county.

A deadline will be established Wednesday night several blocks from the prison. No traffic will be allowed inside the deadline and crowds which may assemble will be dispersed. Large squads of patrolmen, mounted men, state police and guards in armed cars will patrol the vicinity of the prison. Guards will be stationed on the roofs of nearby houses. All five bridges leading to Charlestown will be guarded and a careful watch will be kept on all vehicles crossing the bridges.

All leaves and all days off among the prison guards have been cancelled. Guards about the prison will be doubled Wednesday night.

May Prison Prison

A large crowd is expected near the prison because of the notice sent out by the Sacco-Vanzetti defense committee mobilizing all sympathizers. Many (freed) unionists and others are expected here tomorrow and it was said they would picket the state house and the prison, wearing mourning bands on their sleeves.

The police will not permit the passing out of any handbills and will allow no mass picketing in the form of a death watch at the prison or in front of the statehouse.

Sacco and Vanzetti continued to refuse food today. This is the twenty-third day of Sacco's hunger strike. He is weak and listless and in a semistupor. Vanzetti spends much of his time writing, but none of his letters has reached his friends.

Gov. Fuller deferred action on the defense counsel's request for a stay of execution, pending the outcome of the action in the courts.

Appeals to Coolidge

The defense committee telegraphed to President Coolidge today asking him to intervene with Gov. Fuller to grant clemency to the condemned men. The appeal to the President cited as a precedent the action of President Wilson in the Thomas Mooney case. President Coolidge was informed that there was material in the files of the department of justice that would explain the conduct of Sacco and Vanzetti when they were arrested, and declared that Gov. Fuller's advisory committee had failed to investigate the department's files.

Edward Holton James, nephew of William James, the psychologist and Henry James, the novelist, was fined \$75 in the Municipal Common court today for denouncing the judiciary at the meeting which was held for a few minutes on Boston common on behalf of Sacco and Vanzetti.

Sacco Meeting Called

New York, Aug. 3.—(Special.)—Socialist and communist groups went ahead separately today with plans for the one day strike and mass demonstrations tomorrow to voice their protest against the impending execution of Sacco and Vanzetti. At the same time the police rapidly whipped into shape their plans to handle the meetings and prevent disorder or incitement to violence.

The Sacco-Vanzetti emergency committee's meeting at Union square at 4 o'clock is expected to be the most important of the demonstrations. The I. W. W. and Marine Transport Workers union will hold a mass meeting at South ferry at noon. The Socialist party and a group of trade unions have announced they will hold thirteen meetings at 11 o'clock.

On the basis of strike calls issued and the promises of trade union leaders

Watches Fight to Save Radicals

Mrs. Rose Sacco, wife of Nicola Sacco, who, with Bartolomeo Vanzetti, is awaiting execution for murder. This picture was taken recently as Mrs. Sacco left the prison where her husband is held. She was on the verge of collapse.

(Packing and Atlantic Photo.)

to call out members for one day, the Sacco-Vanzetti committee estimated that 750,000 workers would lay down their tools today. The highest previous strike estimate of the committee was 500,000.

Detective Christopher Kelly of police headquarters went to Boston today to run down a clue picked up in the investigation of Friday's bombings of the I. R. T. and the B. M. T. subway stations.

It was learned that several persons had noted the number on a Massachusetts license plate on a sedan which sped from the scene almost simultaneously with the explosion.

Fifteen letters containing threats have been received by individuals and corporations since the bombings.

Held 8 in Philadelphia

Philadelphia, Pa., Aug. 3.—(AP)—Eight men, who police say were attempting to incite transport and electric workers to a 24 hour strike beginning tomorrow in protest against the execution of Nicola Sacco and Bartolomeo Vanzetti, were arrested here today.

It was reported that 189 of the 200 units of the local Central Labor union will suspend work for 12 hours tomorrow.

Refuse Protest Permit

Newark, N. J., Aug. 3.—(AP)—A permit for a mass meeting tomorrow in protest against the scheduled execu-

tion of Sacco and Vanzetti was denied by police tonight to Nathan Kleinman, local representative of the Amalgamated Clothing Workers of America. Kleinman declared that 5,000 members of the union would go on strike tomorrow morning.

Denied U. S. Files

Washington, D. C., Aug. 3.—(AP)—The department of justice today denied a request of a Sacco-Vanzetti sympathizer for information in its files relating to an alleged effort on the part of the federal government to "frame" the pair.

The request was made by telephone to Acting Attorney General Farnum, who said that the federal government had no connection with the trial of the two men.

3 Boys Killed, 1 Injured

as Train Crashes Into 6

OH City, Pa., Aug. 3.—(AP)—Three small boys were killed, another was hurt, while two more escaped injury tonight when a Pennsylvania railroad passenger train crashed into a group of six near Franklin, Pa.

Prices realized on Swift & Company's sale of carcass beef in Chicago for week ending Saturday, Aug. 3, 1927, on shipments sold out were as follows: Cows, common to good, 10.00 cents to 13.50 cents; steers, common to medium, 14.00 cents to 17.00 cents; steers, good to choice, 18.00 cents to 21.50 cents. Total sales averaged 10.73 cents per lb.—Adv.

ALIENS WARNED TO OBSERVE LAW IN SACCO FIGHT

Danger of Deportation if They Break Statutes.

Honolulu, Wash., Aug. 3.—(U.P.)—Congressman Albert Johnson of Washington, chairman of the house immigration committee, has issued a warning to aliens that "they end their chance of becoming American citizens" and "become liable to deportation" if they engage in undue protest against the scheduled executions of Sacco and Vanzetti.

Calls Anarchists "Enemies"

Addressing "all native born citizens, naturalized citizens, declarants, and all aliens who desire to remain in the United States," Representative Johnson said:

"Do not let your sympathies for wrong information about Sacco and Vanzetti, the Italian bandits and murderers, approach their execution Thursday. They are anarchists and enemies of this government, but that fact has nothing to do with their convictions nor with their approaching execution. They should never have been admitted to the United States, and under the new immigration act could not have been admitted."

"Aliens domiciled in this country should remember that if they partake in anti-government demonstrations here they will be liable to deportation under the 1919 act."

"Evidence of Anarchy"

Washington, D. C., Aug. 3.—(AP)—Labor department officials, explaining Chairman Johnson's reference to the immigration laws governing deportation, said that mere participation in the Sacco-Vanzetti demonstrations would not cause the deportation of any alien. But they added that such action might be one item of evidence tending to prove that an alien was either an anarchist or a communist.

The holding of anarchistic and communist opinions or membership in anarchistic and communist organizations constitutes adequate ground under the law for deportation, the officials declared.

James Oliver Curwood, Seriously Ill, Improves

Owosso, Mich., Aug. 3.—(Special.)—Physicians attending James Oliver Curwood, the author who is critically ill, tonight announced that his chances for recovery were improving.

PROTESTS INCREASE HERE AND ABROAD FOR SACCO AND VANZETTI

(By the Associated Press.)

Moves in two Massachusetts courts to save Sacco and Vanzetti from execution failed yesterday while unrest continued both at home and abroad.

Judge Webster Thayer, before whom the men were convicted of murder six years ago, denied a motion for a new trial in the Superior court. He took under advisement a motion for revocation of sentence. Justice Sanderson in Supreme court at Boston denied petition for a writ of habeas corpus, a stay of execution and for a writ of error.

A petition to Gov. Fuller for a stay of execution is pending.

While the day was marked by no violence directly attributable to sympathizers, two bomb explosions caused damage to the extent of \$300,000 in Utica, N. Y.

Paris last night drivers and 1,000 Parisians took part in a protest strike. A group of New York radicals and labor leaders estimated that 800,000 workers would strike today.

A general strike was scheduled in Montevideo, Uruguay.

While workers in Buenos Aires returned to work at the end of a three day general strike, a general strike was planned for Wednesday.

Police guarded American embassies and consulates abroad.

In New York fifteen threatening letters were received by owners of skyscrapers, prominent buildings and newspapers, threatening bombings if the executions take place.

Among many protests reported were mass meetings of sympathizers at Vancouver, B. C. and Helsingfors, Finland; a number of sporadic demonstrations in Paris, and a plea to the American consul at Plymouth, England, by a group of communists.

In Philadelphia, where the Emmanuel Presbyterian church was damaged by a bomb Friday night, three dock workers were arrested while distributing literature calling for a general protest strike.

Edward Holton James, wealthy radical, arraigned in Boston for inciting to riot and assault, refused to plead, stating that he would not stand up "before murderers," and was fined \$75.

Responding to a call from the Boston Sacco-Vanzetti defense committee to liberals throughout the country to march upon Boston in a monster demonstration tomorrow, the New York committee announced that several thousand New Yorkers would take part.

Sacco Mob Beaten Off by Casa Blanca Police.

(Continued from first page.)

night not to make the protest against the execution of Nicola Sacco and Bartolomeo Vanzetti on the ground that the union had no facilities for investigating the justice of the trial of the Italians in Boston.

Consul Refuses Protest

MONTREAL, Que., Aug. 3.—Albert Halstead, American consul general at Montreal, today declined to serve as a medium for local protests against the execution Thursday of Sacco and Vanzetti.

The chairman of a protest meeting called on the consul general and asked him to wire President Coolidge for a stay of the execution. Mr. Halstead flatly said:

"Outside interference with the process of justice in the commonwealth of Massachusetts is an impertinence."

Call Troops in Uruguay

MONTREAL, Que., Aug. 3.—[U.P.]—Several infantry and cavalry regiments were ordered into the city today to cope with disorder potential in the plan for a twenty-four hour general strike beginning at midnight tonight in protest against the death sentence against Nicola Sacco and Bartolomeo Vanzetti.

World in Doubt, Says Rome Paper

(Chicago Tribune Press Service.)

ROME, Aug. 3.—"Unita Cattolica," the organ of "Azione Cattolica," the official organization under which is grouped all the laity activities of the Catholic church of Italy, today devoted attention to Nicola Sacco and Bartolomeo Vanzetti.

In a carefully worded editorial the paper says:

"There is widespread feeling throughout the world that there may be a judicial error. According to Roman law, if there is any doubt whatever, Sacco and Vanzetti should wait the benefit of this doubt."

Spreads to South Africa

CAPE TOWN, South Africa, Aug. 3.—[U.P.]—Big meetings of communists and members of the Labor party are being held in the principal centers of South Africa to protest against the execution of Nicola Sacco and Bartolomeo Vanzetti.

ADD DETECTIVES TO GUARD MAIN POSTOFFICE HERE

Two detective bureau squads were added yesterday to the guard of twenty-three federal employees detailed to guard the main postoffice against threats of violence attributed to the Sacco-Vanzetti case.

Letterers in the main floor of the postoffice were immediately ordered to move along. Every suspicious appearing person or package was examined. All branches of the postoffice department were on the lookout for queer shaped packages being sent through the mails for fear that a bomb might be contained. The guard will be maintained until after Wednesday, the date set for the execution of Sacco and Vanzetti.

Chief of Detectives William E. O'Connor last night instructed day men assigned to the bureau to work until 10 o'clock tonight and tomorrow night. A reserve force of detectives will be held at the bureau to cover any riots. At headquarters of the International Labor Defense it was announced last night that a mass meeting of protest against the execution of Sacco and Vanzetti will be held at Ashland auditorium tonight. Speakers, it was announced, will include Dr. John A. Lapp, head of the Liberal club, the Rev. Norman B. Barry, and James P. Cannon.

WORLD LAST RITES TODAY FOR WOOD IN WASHINGTON

Army, Nation Pay Final
Tribute at Arlington.

[Chicago Tribune Press Service.]
Washington, D. C., Aug. 8.—(Special.)—The body of Maj. Gen. Leonard Wood, governor general of the Philippines and father of the citizens' military training system, will be buried with full military honors in Arlington cemetery.

At the request of the widow his body will be placed in a casket known as "Rough Riders" plot. His tomb will be only short distance from Arlington Memorial amphitheater.

Gen. Wood died in a Boston hospital yesterday following an operation performed Saturday by Dr. Alexander Lambert. Dr. Lambert's announcement indicated that the operation was successful.

Gen. Wood was 67 years old. He was a member of the Senate for two years. He was a member of the House of Representatives for 12 years. He was a member of the Supreme Court for 12 years. He was a member of the Supreme Court for 12 years.

Impressive Military Rites.
The most impressive military service since the burial of Gen. Wood was the funeral of Gen. Wood. The funeral was held in Arlington National Cemetery. The funeral was held in Arlington National Cemetery. The funeral was held in Arlington National Cemetery.

WOOD GREAT PUBLIC SERVANT, COOLIDGE MESSAGE TO WIDOW

Rapid City, S. D., Aug. 8.—(P)—The Filipino people have lost a true friend and the United States a great public servant in the death of Maj. Gen. Leonard Wood, declared President Coolidge in a message to Mrs. Wood, made public here today.

The President's telegram follows: "I want to extend my deep sympathy in the sorrow which has come to you in the death of your husband. Eminent as a soldier, it was his higher privilege to ally the suffering which war had wrought and through wise and patient effort to bring again the blessing of peace and ordered government."

Gen. Wood's record in the Philippines was one of self-sacrificing devotion and I believe that as the years pass there will come an increasing realization that in his going the Filipino people have lost a true friend and our own country a great public servant."

FILIPINO GROUPS SPLIT

[Chicago Tribune Press Service.]
MANILA, P. I., Aug. 8.—As a result of the sudden death of Gov. Gen. Leonard Wood, Filipino politicians have taken a new lease on life and are keenly watching President Coolidge for an indication of who his successor will be. The mention of Henry L. Stimson as the possible most likely candidate has caused a split in Filipino circles. Some are favoring him and President of the Senate Manuel Queson and Speaker of the House Manuel Roxas support him.

Others are strong Wood men. During Mr. Stimson's last visit here he was viewed with alarm as a strong Wood man who probably would carry out the governor general's policies. The reason for this is that Stimson was a member of the Senate and his name was mentioned in a recent issue of the Foreign Affairs suggesting a new form of government for the Philippines.

The Stimson plan is based on the

SUE 2 INDICTED OIL PROMOTERS, ASKING \$364,900

Los Angeles, Cal., Aug. 8.—(Special.)—Two civil suits, one demanding \$364,900 from W. I. Hollingsworth and the other demanding \$69,900 from Harry M. Haldeman, were filed today by receivers for the Julian Petroleum corporation.

The suits demanded are sought on the allegation that the two wealthy Los Angeles capitalists obtained excessive sums of interest for making loans to the Julian company, when it was in financial straits a year ago. Hollingsworth is director of the Pacific Southwest bank, the Pacific Building and Loan association and an officer of several real estate corporations.

Haldeman is president of the Pacific Pipe and Supply company and various contracting firms.

Grand jury inquiry into affairs of the Julian company recently resulted in charges that forged stock certificates aggregating \$18,000,000 had been sold by Los Angeles brokerage houses. Hollingsworth and Haldeman are two of fifty-five local capitalists, who were indicted.

Chief officers in three of the city's big banking houses were indicted.

ORGANIZE FOR MOSQUITO WAR ON NO. SHORE

Twenty-eight representatives of north shore communities met last night in Evanston and took initial steps toward the formation of the north shore mosquito abatement district.

William G. Edwards of Glencoe was made president of a temporary organization; John F. Hahn of Evanston, in whose office the meeting was held, treasurer, and James Williams, secretary. Mr. Edwards is to appoint a committee of twelve to solicit the signatures of voters to petitions requesting County Judge Janssen to call an election on the formation of the district.

PRICES OF GRAIN, COTTON JUMP AS STOCKS DROP

Recent Gains Lift Crops
Value \$440,000,000.

Wild trading on the Chicago market, following reports of short crops in Canada and the south, yesterday drove the price of the principal grains up approximately 5 cents a bushel, while cotton registered a gain of 10 per cent on 500 pound bales, the largest in several years.

The gain in wheat and rye was due to weather conditions in Canada. Frost was reported over vast areas of wheat producing country and temperatures in parts of Saskatchewan fell to 24 degrees. A secondary cause was unexpected information that black rust in western Minnesota, eastern North Dakota, Manitoba, and Saskatchewan might cut the wheat crop in these sections as much as 20 per cent.

Followers Break in Prices.
On Saturday the market had closed with a sharp break in grain prices. There was an extended short interest and most of the traders were bearish. Consequently there was a rush to buy at the opening of yesterday's session. One professional trader who was short was credited with buying 3,000,000 bushels in the first hour. This started the marked upward swing and speed was added when huge purchasing orders came from the northwest, the southwest, and Canada.

Similar advances were made on other grain trading markets, the extreme gain at Winnipeg, most of which was held until the close, reaching 3 cents. While the grain and cotton markets advanced yesterday, trading on the New York exchange produced declines of 1 1/2 to 2 points (\$1.50 to \$2 a share) in a wide list of securities.

Boost Values \$440,000,000.
Theoretically, the higher prices yesterday added \$170,000,000 to the wealth of grain growers of North America, while cotton growers will profit to the extent of \$140,000,000 on their estimated crops. In less than a week advances in grains have given farmers an estimated income increase of \$440,000,000.

The jump in cotton followed the issuance of the government crop report. It had been expected that this would show a large crop. On the contrary, the 1927 production was estimated at 15,492,000 bales, less by 1,000,000 bales than was anticipated in private reports a week ago. The 1926 crop, the largest on record, was 17,997,000 bales.

It was regarded as likely that the gain in cotton would have been larger but for the trading regulations in the grain futures act. This prohibits an advance of more than 200 points, two cents a pound, in a single day and trading stopped at that mark. In New York, spot cash cotton leaped up 230 points, equal to \$12.50 a bale, the price reaching 18.45 cents, the highest of the year.

Private reports from crop experts who have traveled over the corn belt during the last week agree that the crop is to be smaller than usual, although the government report, due tomorrow, is expected to show a fair prospective production.

On the Chicago market yesterday September wheat, from a low of \$1.37 1/2, rose to \$1.43 a bushel and closed at \$1.42 1/2. The high point for December was \$1.47 1/2 and the close \$1.46 1/2 to \$1.48 1/2. Both those futures showed net gains of 5 1/2 cents a bushel.

GEN. PERSHING, HERE ON WAY WEST, PAYS TRIBUTE TO GEN. WOOD

Gen. John J. Pershing stopped over in Chicago a few hours last night on his way to Lincoln, Neb., and to Cheyenne, Wyo., where his son, Warren, is spending the summer on a ranch. He expressed regret that he would be unable to attend the funeral of Gen. Leonard Wood at Washington, but said that his engagement at Lincoln had been made months ago.

"I am sorry indeed," he said, "that I cannot be one of those to do honor to that great soldier at Washington. Gen. Wood's death is an inestimable loss to the country. His life has been one of such unselfish devotion to his country as is rarely found."

The general, clad in a light gray suit and broad brimmed straw hat, appeared to be in excellent health and of youthful appearance. He was met at the station by Col. W. E. Hust of army headquarters.

Guard Evanston Paper Following Dismissals

Evanston police detailed a number of policemen last night to watch the office of the Evanston News Index as a precaution against outbreaks of violence following the discharge of 42 union employees last Saturday. Allen D. Albert, the publisher, declared that he had received a number of threats from the discharged men. They were discharged, he said, when they failed to reduce expenses, and nonunion men were hired.

MOVE IN ITALY TO END STATE AND CHURCH DISPUTE

[Chicago Tribune Press Service.]

ROME, Aug. 8.—(Special.)—The law of guarantees of the Italian state, passed May 13, 1871, which declared that all residences of the pope on Italian soil should enjoy immunity and should be extraterritorial, and established of relations between the holy see and Italian government on a basis similar to those between two sovereign states seems likely as a new step toward a concordat between the church and state. The Fascist and Catholic press have been giving the subject lengthy consideration.

The Vatican refuses to admit that the Italian state has any authority to legislate in ecclesiastical matters, but progress toward a concordat has been made.

MILITARY CAMPS SEND FLOWERS FOR WOOD RITES

Among the wreaths replying today on the coffin of Gen. Leonard Wood at Arlington is one from the Military Training Camps association. Gen. Wood was honorary president of the organization.

"We honor him as founder of the Plattsburg movement and the inspiration of the citizens military training camps," reads a telegram sent to the general's widow. "His name will remain in the annals of our country as a foremost citizen, soldier and administrator."

LISTEN, MATES: SHE SPINS YARN OF STORMY SEA

[Sydney, Australia, Aug. 8.—(U. P.)]

The crew of the American sailing ship, *Tenacious*, arrived today from Raymond, Wash.

When the wind blew, it blew unfavorably, said Mrs. George Wester, the captain's wife. Provisions got low. There came a series of fierce gales. An albatross, battered by the wind, fopped to the deck. The wind dropped and it flew away. Another gale, and it returned. This happened several times. Remembering what happened to the albatross, the crew decided to try it the other way.

The run was holding out, and on the albatross' next visit they mixed it a lot of grog, piping hot. The bird drank thirstily, stretched its wings, and flew away murmuring thanks in albatross. The wind turned fair. A shark appeared. It was hooked and the more delicate portions eaten. Every time the crew began to feel hungry, another shark appeared. When the crew was on its twentieth shark, the ship reached Sydney.

DEATH OF MYSTERIOUS WOOD

Thomas Birmingham, 55 years old, 6324 South Larkin street, died yesterday of a skull fracture received earlier in the day. He was a man who did not give his name. Police are searching for this man.

AUTO KILLS GIRL; DRIVER IS HELD; COUNTY TOLL \$59

Clad in her bathing suit, seeking a piece of ice a kindly woman had given her, Dorothy Waters Davidson, 4, was struck by an automobile yesterday as she was walking across the street in front of the home of her father, Donald W. Davidson, insurance broker, 121 North Linden avenue, Highland Park. She died a few minutes later. The driver, Rudolph Reuland, 223 North avenue, Highland, was arrested.

Three deaths in Cook county during the day raised the county's motor toll since Jan. 1 to \$59.

Thomas Rogers, 44, of 1088 Marquette road, died from injuries received April 30, when struck by a car while at East 64th street and Stony Island avenue.

Master McFadden, 8, colored, was struck and killed by a truck in front of his home, 1244 Indiana avenue. Police arrested Joseph Fale, 19, of 8740 West 51st street, Chicago, the driver.

An unidentified man about 50 years old, who was struck by an automobile at Westworth avenue and 44th street on Sunday evening, died last night at the German Deaconess hospital.

Mrs. Dorothy Bennett, wife of the Rev. Fred E. Bennett of Maywood, was severely injured when the automobile which she was learning to drive left Sheridan road north of Zion, Ill., and crashed into a tree.

COUNTY CHEATED OUT OF AUTO TAX, CERMAK CHARGES

Lists Figures to Show
Returns Are Unfair.

(Continued from first page.)

has cost us nearly \$25,000,000 just on the question of roads alone."

County Commissioner Francis L. Boutell, a leader among the Republicans on the county board, after examining the figures quoted in the above tables, said they reflected a deplorable condition.

Urges Forced Payment.

"It is outrageous that our citizens should be so heavily taxed with so little return," he declared. "The \$2,250,000 is an obligation directly due us by the state, and it is an obligation on which we should force payment."

"Now that the state is taking two cents on every gallon of gasoline we use, and Cook county is to pay many millions into the gasoline tax fund annually, we should put an end to this unfair discrimination against our county. We should resort to the courts, if necessary, to compel the state authorities to give us our just due."

Practically all of the license fees collected in the state in the next decade or more will be used to pay principal and interest on the two bond issues of the state, it was stated by President Cermak.

Under the first, the \$60,000,000 issue sold in 1920, a total of 4,597 miles of hard roads was constructed, of which Cook county was to receive 152 miles. The second, or \$100,000,000 bond issue, under which construction has but recently been started, will be used to build 5,085 miles of roads, Cook county's share being only 248 miles. So that out of the \$160,000,000 of bonds to build 5,482 miles of roads, Cook county will get just 400 miles, or a shade better than 4 per cent.

Pay 35% and Receive 4%.

"While we are being given this insulting 4 per cent," Mr. Cermak asserted, "we are shelling out 35 per cent of the automobile taxes—gasoline and license—which are used to pay off the bond issues. However you look at it, Cook county is in process of being bamboozled."

Cook county has 1,475 miles of roads, dirt, gravel, macadam, asphalt, and concrete, according to Engineer Firststein's computation. Under the state highway act counties are permitted to receive state aid on half the roads within the county—excepting within village and city limits—which would entitle Cook county to call upon the state to share equally the expense of building 738 miles of county roads.

"But try and get it," Mr. Cermak repeated. "They haven't paid us a cent on the 330 miles we have already built, and while Small is governor they won't pay us a cent on the rest of it."

Secret Girl Witnesses Pick Youth as Slayer

Police yesterday refused to divulge the names of two girl witnesses who identified Sigmund Garbaciak, 21, of 1422 West Forty-ninth place, among fifty other prisoners in the county jail as the slayer on April 13 of Frank Novak, a bank messenger. Novak was held up and shot while delivering a pay roll.

One Skinny Man Gained 28 Pounds

"Feels Like a Real Man Now—
Thanks to McCoy's"

That's just what one man wrote from Atlantic City and thousands of men and women know by experience that McCoy's Tablets, known the world over as the great flesh producer, do put on flesh where flesh is most needed.

It doesn't take but a few weeks for hollows in cheeks, neck and chest to fill out and what a change for the better this will make in your personal appearance.

And besides looking better, you'll feel better for in McCoy's Tablets is a combination of health building agents that increase strength and bring vigorous health to weak run down nervous men and women.

McCoy takes all the risk—Read this ironclad guarantee. If after taking 4 sixty cent boxes of McCoy's Tablets or three dollar boxes you are thinner, underweight man or woman doesn't gain at least 5 pounds and feel completely satisfied with the marked improvement in health—your druggist is authorized to return the purchase price.

The name McCoy's Cod Liver Oil Tablets has been shortened—just ask for McCoy's Tablets at any drug store in America, or

Chimney That Withstood Chicago Fire Torn Down

(Picture on back page.)

A brick chimney, 150 feet high, which has stood at Townsend and Erie streets for more than 60 years, was dynamited yesterday in clearing ground for a new building. The chimney was built shortly after the civil war by the Kroeschell Boiler works. It was one of the few structures in the district which withstood the Chicago fire.

FIND 116,000 PAY MORE THAN THEIR SHARE OF TAXES

Commissioners Give First
Results of Survey.

BY OSCAR HEWITT.

There are many property owners—perhaps 116,000 in Chicago—who are being cheated and imposed upon in tax matters, according to the joint tax commission on real estate valuations which submitted one study yesterday to President Cermak of the county board. The commission found that 1,808, or more than 25 per cent of the 6,108 properties investigated, are paying taxes on higher valuations than the average realty holder.

The sale price and the tax valuation of these 6,108 pieces of Chicago realty were investigated by the commission in conjunction with the bureau of land economics of Northwestern university. A summary of the Northwestern university report was printed in THE TRIBUNE July 5 and the joint commission has made further analyses of these basic figures.

96,000 Are Undertaxed.

Assuming there are 400,000 real estate owners in Chicago, although there are more, and assuming that the percentages found in the 6,108 records hold good, about 188,000 pay taxes on valuations which vary between 21 and 35 per cent of the sale value of their property, while 116,000 pay on a

higher percentage, so that 96,000 may pay on a lower percentage.

The report shows that 174 of the 1,808 property owners investigated, pay taxes on a valuation of only 5 per cent or less of the sale value of their property. These 174 sold the properties for an aggregate of \$4,446,000. Five per cent of that amount is \$222,300. Therefore the assessed valuation on that \$4,446,000 worth of property was only \$222,300, assuming that all the 174 paid on a full 5 per cent of the sale value, which they did not.

These 174 are enabled to escape such a large part of their taxes, it is pointed out, partly by reason of the fact that there were 15 property owners who paid taxes on a valuation larger than the amount they sold their property for. These 15, who sold their property for a combined \$1,320,000, had an assessed valuation half the "actual" valuation of \$660,000.

Where the Burden Falls.

The joint commission has several analytical tables showing that the property owners who are being soaked so that others may escape are in various degrees of wealth and have sundry kinds of buildings. Even the owner of a small cottage or a tiny bungalow and the wage earner with his two flat are being cheated as much as owners of wholesale and retail properties or the landlords of large apartment buildings. In fact, the two flat owners are being hit a trifle harder than certain wealthier classes.

More than 28 per cent of the owners of two flat buildings are paying taxes on a valuation which is 35 or more per cent of the sale value of the property.

The owners of overassessed large properties," says the report, "have the means to organize together, collect the facts necessary to show their position, and to seek to have their constitutional rights made effective by the courts. The owners of overassessed small property are practically precluded from enforcing their rights in the courts because of the expense involved."

The Assessor's Problem.

The joint commission makes this comment on the situation: "Most property owners are interested in breaking down their assessments, some because they believe they are too high and others because they want the lowest assessment possible, regardless of what is just and equitable. The taxing officials are daily ex-

posed to the fire of a minority of militant, selfish property owners and the threat of scheming politicians. It is but natural that officials elected by popular vote have a tendency to respond to good fellowship, flattery or strong pressure; and where no standards prevail it becomes difficult for the taxing official to distinguish between the over and the under assessed."

It is the contention of the report that there are no standards in Chicago tax valuation which are observed. It recommends that they be devised and placed in practice.

In addition to the five assessors, three members of the board of review and three members of the county board, the commission is composed of the following citizens: Joseph K. Brittain, Albert J. Brookman, Mrs. Henry W. Cheney, Gen. Abel Davis, George O. Fairweather, Edward B. Gore, Mrs. B. Langworthy, Joseph R. Noel, Victor A. Olander, Walter Dill Scott, Gordon Strong, Prof. Jacob Viner, Henry Zahler, John M. Cameron, and John W. Alford.

Water Tank Falls on Train; Three Killed, Three Injured

Waterloo, Ill., Aug. 8.—(AP)—Three men were instantly killed and three injured when a water tank on the right of way of the Mobile and Ohio railway, five miles north of here, collapsed today. The tank fell on a work train which was passing.

ASKS WELFARE WORKERS' ADVICE ON ROADHOUSES

Miss Jessie Blinford, director of the Juvenile Protective association, yesterday was invited by President Anson J. Cermak of the county board to help Cook county regulate roadhouses. She had described the roadside resorts as centers of vice, gambling and bootlegging in the current issue of Welfare, a monthly magazine published by the Illinois department of public welfare.

"The county commissioners will be glad to hear her advice in issuing permits for roadhouses," President Cermak said.

"I'm not speaking of roadhouses within the corporate limits of villages, towns or cities. They are not within our jurisdiction. Maybe it was these that Miss Blinford saw."

BOYS SENT FOR MONTH'S OUTING.

A team of boys picked by the Juvenile Protective association from Chicago's tenements were sent to Thunder Mountain, Wis., yesterday for a month's outing. They will be guests of a group of Oak Park women at a cottage and vacation grounds at Thunder Mountain. This is the first group to enjoy these outdoor privileges. Others will follow.

EXPLAINS VOTE AGAINST RAILWAY AIR RIGHT LEASE

Alexander J. Johnson, a member of the Illinois commerce commission, last night wired Tins Tinsbury that he voted against the application of the Chicago and North Western railroad to lease its air rights at Wells street and the river to Marshall Field & Co. because he is unwilling to experiment with the air right principle. The telegraph states that he favors a direct lease or direct sale of the property.

"My motion," Johnson states, "was to deny the present petition, but to sanction either a straight lease or straight sale. Thereby the railroad would retain part of the property for its own use under a lease or sell the whole property with a proviso that Marshall Field & Co. lease back to the railroad that part of the property which the railroad wants to retain for its own use."

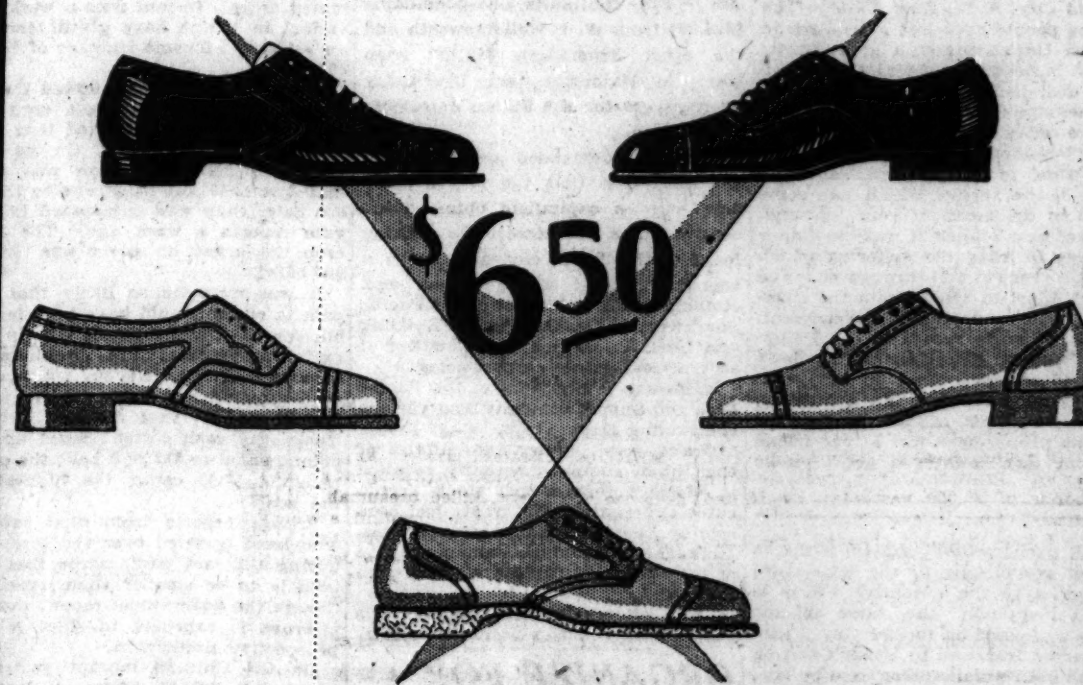

The air right deal which failed by one vote to secure the sanction of the commission again will be put to a vote before that body today.

BOY DROWNED IN LAKE.

An unidentified colored boy about 12 years old drowned in the lake near the foot of Erie Park boulevard yesterday. Two colored boys, seeing him disappear beneath the water, summoned Emil Erickson, a lifeguard, 6331 Drexel avenue, who dived and brought the body to the surface.

WHAT FAHERTY'S SHOVEL NEEDS IS A LEGAL HANDLE

Then He'll Make Subway Dirt Fly, He Says.

Michael J. Faherty, head of Mayor Thompson's board of local improvements, wants to build a subway for Chicago "so fine that people will pay their fare just to go down and look at it."

Returning yesterday from a ten day vacation, Mr. Faherty plunged at once into a further study of subway plans. He said he has read the Strong-Tyson committee report three times, conferred with the mayor at length, and is "all ready to start when he gives the word."

"There is never anything I wanted to do more in my life than to dig a subway," he said. "I want to build a system that will bring visitors here from all over the world. It will be a subway worthy of Chicago."

Legal Maze Is Big Problem. Actual construction of the tubes, Mr. Faherty said, does not worry him nearly so much as clearing away the legal entanglements. It would be comparatively simple, he believes, to build for example, a horseshoe tunnel in Washington boulevard and Madison street, which at Michigan avenue, for "a subway, after all, is only a low level street," he said.

"But first we must contract for its use," he continued. "That means some kind of permanent franchise has to be approved. The north and west side surface lines, being in receivership, couldn't contract to use subways now if they wanted to."

"After that plans must be approved, assessments spread and tested in the courts. Therefore, much as we want to get started, there is bound to be considerable delay."

Rejects Private Capital Plan. Mr. Faherty, as well as Acting Corporation Counsel James W. Brown and Al Joseph E. McDonough, chairman of the council transportation committee, rejected the idea of subways built by private capital, as advocated by Al Leonard J. Groesman. Fares would be so high that they would have to be abandoned, he said.

Al Oscar Nelson, the mayor's council floor leader, also added his protest against the private capital plan method, thus making the stand of administration leaders practically unanimous for the special assessment plan.

Winnetka Girl Killed by Train at Kenilworth Station

(Picture on back page.) Edna Mills, 14, of 878 Cherry avenue, Winnetka, was struck and killed by a Chicago and Northwestern train at the Kenilworth station yesterday morning. The girl, an eighth grade student at the Skokie school in Winnetka, had been earning vacation money by working in an ice cream parlor at Kenilworth. She was the daughter of John Mills, building contractor.

SCHOOL ENGINEERS BOW TO BOARD TERMS ON CIVIL SERVICE CONTROL

School engineers meeting yesterday with John E. Byrnes, business manager for the board of education, accepted in full the recent ruling of the board which put the entire maintenance department under civil service. Demands for a compromise by which the old contract system would be continued to Sept. 1 were dropped.

By the terms of the agreement all engineer-custodians lose their positions and will be reappointed by the board as plant superintendents at salaries ranging from \$3,120 to \$4,860 annually. The board's order was retroactive, taking effect as of July 1. More than 2,400 janitors, firemen, assistant engineers, sweepers, and scrubwomen, hitherto employed by the engineers, will now be rehired by the board and placed under the supervision of Michael E. Kelly, newly appointed director of labor.

Michael F. Ryan, attorney for the engineers' union, yesterday appeared before Judge Philip Sullivan and requested an order for time to file an amended bill for an injunction restraining the board from changing the status of custodian-engineers. This move, it was said, was taken as a precautionary measure in case the board contemplates taking advantage of the change of status to remove any of the engineers.

The annual cleanup of the schools, which has been interrupted pending the outcome of the conference, will be resumed today, Mr. Byrnes said.

Count Szechenyi Loses Left Eye After Auto Crash

(Picture on back page.)

BUDAPEST, Hungary, Aug. 8.—(U.P.)—Surgeons today removed the left eye of Count Szechenyi, Hungarian minister to Washington and husband of Gladys Vanderbilt, following injuries received in a motor accident yesterday. Countess Szechenyi arrived here just before the operation.

BABY KILLED IN FALL OUT WINDOW. While playing alone a window sill in the home of his parents at 2649 Thomas street Arthur Eberlein, 18 months old, pushed out the screen and fell to the pavement, twenty feet below. He died at the Norwegian-American hospital.

Cheese Men Relish!

No matter the kind of cheese, men hanker for A. 1. Sauce flavor in it. A quantity in the cooking—and a bottle of A. 1. on the table—that's the simple secret of good-to-eat cheese dishes.

STYLE AND COMFORT IN EYEGLASSES

The Oxford

One of the most popular styles of Eyeglasses for both men and women is the Oxford.

The Oxford for women folds up, is attached to a chain or cord, and is always ready for use when it is necessary to glance at a program or menu. Or, if desired, it is also suitable for continued use. The Oxford has all the advantages of the lorgnette with the added convenience of being able to wear it when desired.

The rims are of platinum, white gold, silver, and shell.

Oxfords for men are the same except they are non-folding and are more popular in shelltone frames.

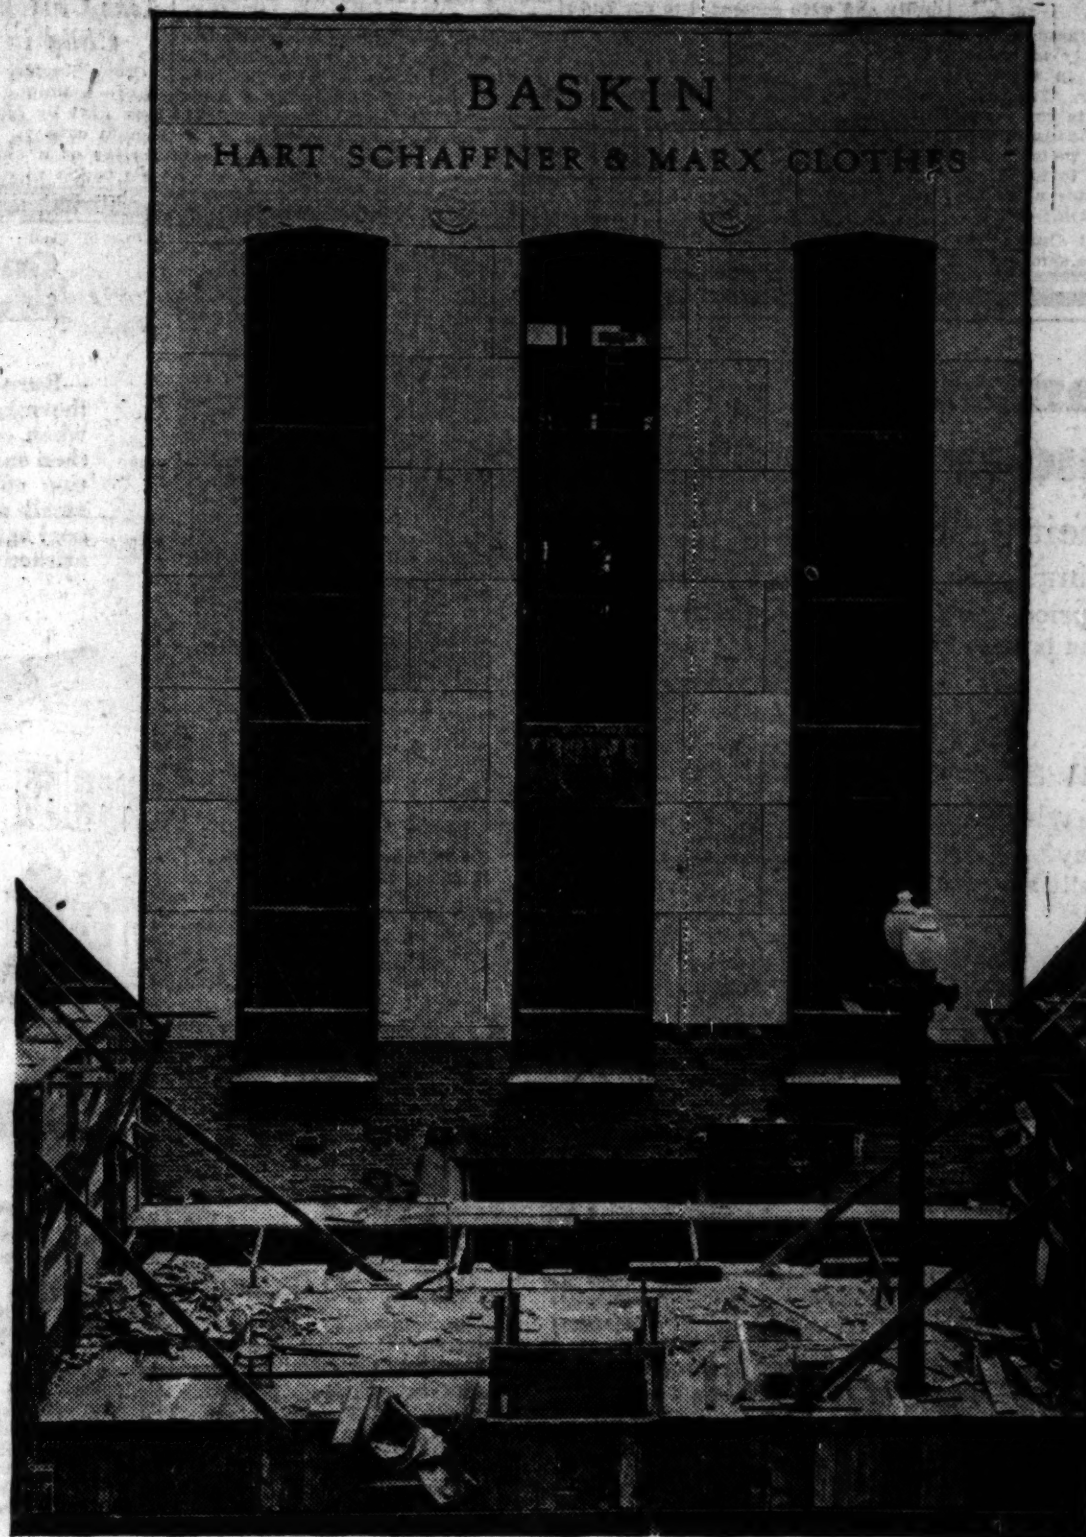

This is but one of the many desirable styles. We help you to select the style best suited to your needs.

Also a complete line of Binoculars, Telescopes, Kodaks, Motion Picture Cameras and other optical items.

PREPARE OR PAY IN LIVES, MONEY— GEN. SUMMERALL

Camp Grant Speech Gives Warning.

(Continued from first page.)

he became an outcast. The night before he was a citizen.

"The result was that we sent weak men into war by weakening them before they ever reached war. Ignorance of how to prepare caused those cruel follies. To avoid repetition of them is the purpose of the training which is given the serious minded Americans of the second line of defense."

The general turned on his listeners with an abrupt "What did Hamilton say?" Then answered, saying: "Alexander Hamilton said, 'Our people must be taught to think nationally; they now think individually.'"

"That is true today. Public Opinion Needed. It ought not to be. The citizen ought to think with the soldier, especially with the soldier of the second line of defense. The national defense plan, with its provisions for the training of officers and for the development of the National Guard, will not work without a sympathetic public opinion."

"What it needs is community support and community support means, in part, that large industries should encourage their men to go to the camps for training. They should say to the men: 'Yes, we will make concessions to your duty of training.' The industries owe that much in recognition of their enormous success and prosperity. That's fair. The least a citizen can give his country is some of his money. The citizen-soldier who goes to camp is not going for fun. He is giving himself, his vacation, his ease."

Train in Peace Time. "In wartime our citizens won't submit to it that lives be sacrificed in vain. But in peace time they won't recognize that, without peace time training, lives will be sacrificed in vain in wartime. It all hinges on the relationship of qualification and position, of capacity and command. We are trying to train men so that if war comes again they will be qualified for position and have the capacity to command. We do not want to train up honorary colonels and political appointees."

"We learned bitter lessons from the

success of preparation for the world war. Never again will the government take nine months to go out in a corn field and build imaginary cantonment cities. Instead it will take facilities in existence—the hospitals, hotels, transportation and sewers of existing cities. That's not concession. It's fair."

War Now Between Peoples. "What I preach is that the day of wars between armies is over. Future wars will be struggles between entire peoples for their existence. The army will be only one element in future wars. The people will not be 'helping' the army. The army will be helping the people. Hence the people owe it to the army to help it in peace time. The army is such essential social insurance—insurance on the safety of society—that for a people to think of their army as a separate caste is ignominious in spirit and foolish in practice."

"Our army never declared a war. Its mission has been only to regain peace and give it back to the civil authorities who had lost it. The army hadn't. What we need is courses in the colleges to teach civilians how to retain peace. Meanwhile we must continue to support schools to teach soldiers how to regain peace after the civil authorities have lost it."

"As for the National Guard, the greatest need, next to the sympathetic

opinion and attitude of civilians, is a closer approach to permanency in staff and personnel. The turnover is too large. It is a sixty per cent turnover in men and almost as large in officers. With the cooperation of all the people, thinking nationally, we might have much greater stability than that in the Guard."

5 Alabama Floggers Given 6 Months and Fined \$500 Oneonta, Ala., Aug. 8.—(AP)—The Jeff Calloway flogging trials were ended today when the state and defense reached a compromise whereby the five men remaining to be tried pleaded guilty and were sentenced to pay fines of \$500 and serve six months in jail each.

Man, 82, and Woman, 76, in Soldiers' Home; Wed Quincy, Ill., Aug. 8.—(Special)—Benjamin F. Trimble, eighty-two, and Mrs. Charity Meyer, seventy-six, were married today. They are members of the Illinois Soldiers' and Sailors' home.

FINDS EUROPE'S CRIME CURBING METHODS WORK

Prevention Rather than Punishment the Aim.

New York, Aug. 8.—(AP)—Europe is dealing with crime through prevention rather than punishment, Dr. Louis N. Robinson, secretary of the subcommittee on penal laws and institutional correction of the national crime commission, reported today after a study of penal institutions in England, Belgium, Holland and Germany.

"While we Americans seem to think that crime can be held in check by

punishing severely an insignificant fraction of our criminals," he wrote in his preliminary report. "Europeans believe that it is far more effective to impose reasonably mild penalties on a large proportion of those who offend."

Europeans rely on their police rather than their prisons to keep down crime, Dr. Robinson found. While Dr. Robinson found no "coddling" of offenders in Europe, he said he found an "absence of any tendency to turn to more severe penalties or to a harsher prison regime."

He found, he said, an effort to substitute something for imprisonment less damaging in its sociological ramifications. Fines and probation, he said, were the most generally employed substitutes. Police and prison officials are free from politics and able to maintain definite standards.

Asks Custody of Unborn Child in Divorce Action

Cedar Rapids, Iowa, Aug. 8.—(Special)—A unique suit for divorce has been filed by Harry Sturtz, living in Benton county. He asks for the sole custody of a child that soon may be born to his wife.

WOMAN SURETY HELD AS GIVER OF FALSE BOND

For some time Mrs. Tillie Wencik, 7614 West Sixtieth street, has been signing bonds for persons accused of crime, but yesterday she needed the services of a professional bondsman for herself. Judge William E. Peters held her to the grand jury in bonds of \$10,000 on a charge of perjury. Mrs. Wencik having been careless in stating the value of her property.

Her arrest grew out of bonds signed for William Ridarelli and Charles Carson, who were caught during a robbery in which they had just taken possession of twenty-six diamonds valued at \$7,000. She became surety for Ridarelli and Stanley Dziedzis signed Carson's bonds. Then the crime commission of Chicago discovered that both bonds were worthless. Each of the bond signers previously had scheduled the same property and had valued it much lower than they did in behalf of the jewel robbers. Judge Peters was considering yesterday whether Dziedzis also was guilty of perjury.

IN A FLASH—

Spic does all you've hoped
a DEODORANT might do!

Kind to skin and fabrics, Spic instantly
destroys the malodorous acids of perspiration
which cause unpleasant body odors

SPIC is modern Chemistry's answer to the demand of fastidious women and men for an instant, sure and utterly harmless deodorant. Soothing to the skin. Friendly to delicate fabrics. Safe to apply to any part of the body at any time and as often as one wishes.

Scientists developed this snow-white soft and soothing powder—so instant and powerful in its action but so kind to the skin and delicate fabrics.

"Here," chemists said, "is a fine soft impalpable powder which presents the one and only sure way to destroy instantly the malodorous acids of perspiration and other secretions which cause unpleasant body odors. We have subjected it to the most severe tests ever given a deodorant. In every case, it responds instantly."

Is it any wonder that women everywhere are delighted by this boon to feminine daintiness and charm? And men by its great contribution to their ease and self-assurance in business and social contacts? Men

That growing boy of yours

Will he become a healthy, vigorous man? His first ten years will largely determine. And you, his mother, have control of those ten years

Every mother knows the importance of food to boys and girls. She knows that well-chosen foods mean health and strength—a strong, vigorous body; and that the absence of certain foods is fraught with positive danger to a child.

Nor do mothers have to be told that of all foods known to man, none is more important, more necessary to the child's growth, than butter—good butter, pure butter—butter with none of the "growing" qualities lacking.

Authorities agree

Physicians, chemists and other scientists have long been curious to learn what it is in good, pure butter that makes children grow and thrive. They know—all of them—that good, pure butter does these things.

For example, McCollum and Simmonds in their authoritative textbook, "Food, Nutrition and Health," state: "The most palatable of all fats is butter when made under satisfactory conditions and with good technic. Among all the fats which are acceptable to the appetite none is so rich in the vitamin A as butter fat."

In a recent investigation, many able physicians were interviewed—and all unqualifiedly recommended good, pure butter for growing children.

What science discovered

Scientific men have added these facts to our inherited knowledge of good, pure butter:

FIRST—All children need a large percentage of fats. Butter not only provides these fats, but in the most digestible form.

SECOND—Good butter contains vitamin A, essential to people of all ages, but especially required by children. No child can develop normally without vitamin A.

THIRD—Another highly important element present in good, pure butter is vitamin D, which authorities say is our greatest bone builder.

This butter is made for growing children

Mothers should know that there is a great difference in butter. They owe it to their children to know something about the butter they serve three or more times a day, year after year.

Blue Valley Butter, because of costly scientific methods and because of care used in selection of cream, possesses all the health-giving properties that Nature placed in the cream.

Blue Valley purity and flavor are first guaranteed by the Blue Valley method of selecting and controlling the cream right from its source. Only finest and purest cream goes into Blue Valley. The cream comes direct from dairy farms in individual, sterilized containers, and then is carefully tested and thoroughly pasteurized.

To further guarantee Blue Valley goodness—to make certain that each pound contains the essentials so vital to the growth and health of children, Blue Valley se-

cured the services of Professor Otto F. Hunziker, the most eminent scientist in this field. Every pound of Blue Valley Butter is made under his supervision.

How children love Blue Valley!

There are many healthful foods that don't "taste good." But that isn't true of good, pure Blue Valley Butter.

Boys, girls, mothers, fathers—all love Blue Valley Butter; on bread, toast and pancakes—as a sauce on vegetables—as a shortening in cakes, pies and other pastries. No trouble getting children to eat Blue Valley. They want it!

The money spent for one pound of Blue Valley Butter will not buy in any other food an equal amount of wholesome, body-building, health-giving properties.

It is a concentrated food—small in bulk, but mighty in what it supplies to growing young bodies.

By reason of its wholesomeness, purity, flavor and superior keeping qualities, Blue Valley Butter outsells all other brands on the market.

For your final protection, Blue Valley is never sold in bulk but only in triple-sealed packages—one pound or one-half pound. Also in quarter-pound "sticks" for cutting patties.

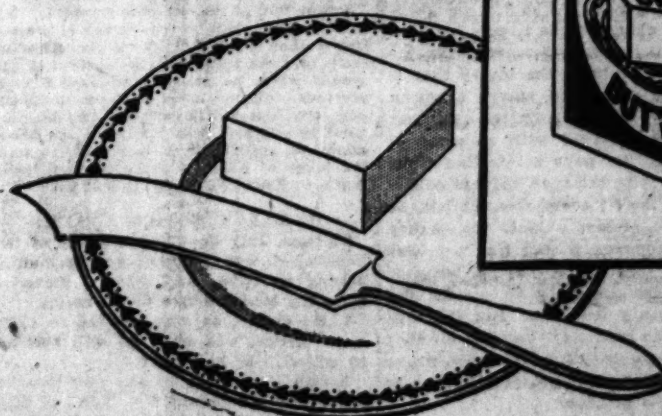

Despite the extreme care and extra precautions employed in handling Blue Valley, its added cost is but a trifle. If not at your dealer's, telephone us. We will gladly arrange to supply you. Blue Valley Creamery Co., 1137 West Jackson Boulevard, Chicago. Telephone Monroe 7420.

Women's organizations, as well as individuals, are always welcome at the sunlit, snow-white Blue Valley Creameries. You are cordially invited to come any time.

BLUE VALLEY BUTTER

is good butter

Made in Chicago

DEMOCRATS HERE WANT AL SMITH FOR FARM MOSES

But It Depends on Whom G. O. P. Nominates.

BY ARTHUR EVANS.

The prophetic talent among the Democrats, taking a squint at the tawny leaves, yesterday set up a chorus in their opinion, Gov. Al Smith is growing in grace and strength as a possible Democratic nominee for President.

Scouts are bringing word, they affirm, that Gov. Smith is cutting into western areas once the stamping ground of William G. McAdoo. The idea of a hook-up, if possible, between Smith and west on an agricultural program, they report, is still in high favor as a Democratic strategy in the next campaign, although the withdrawal of President Coolidge has altered its possible efficacy as estimated by the Democrats.

Some Agricultural Hints.

If the Republicans nominate an outstanding farm reliever such as ex-Gov. Frank O. Lowden or Vice President Charles G. Dawes, it is held, it will be all over but the shouting in the mid-west farming areas. But if Herbert Hoover should be the Republican nominee, the Democrats figure a strong agrarian campaign might bag for them some of the agricultural states, due to a reported disposition on the part of farm leaders to blame the failure of farm relief upon Secretary Hoover as a failure of the administration.

Meanwhile precipitation is apparently the last thing desired by the leading candidates. Word is they are going dry, and not talking too much, which goes also for the dozen or more Republicans already listed in the winter polls. Nobody wants to get out in front too soon, and the scouts report that all hands are sticking to the old political axiom that although the early bird is said to get the worm, on the other hand the early worm gets nipped by the bird.

Smith Isn't Gunning.

Michael L. Igoe, minority leader in the Illinois house, who made one of the leading speeches for Governor Smith at the Madison Square Garden convention, recently returned from consultation with Democratic leaders in the east.

"Some days ago," said Mr. Igoe, "I talked with some of Governor Smith's friends in New York. The attitude the Smith camp is taking is this:

"If the people want Governor Smith, all right, he is available—but he is not going running for it.

"As to main issues, out this way in the agricultural west, farm relief is the great subject. Flood control and prevention is another dominant issue.

Dry Issue a State Question.

"As to the wet and dry question, the opinion I heard most often on my way back was that it would be best to carry it alone in the national platform, leaving it for the individual states to take such action as they desire in their state conventions.

"Gov. Smith will be stronger than Hoover in the Illinois delegation. Cook county will be for him a hundred per cent. Downstate some are talking of uncommitted delegates, but many party leaders take the ground it will be best for candidates for district

AND UNASHAMED.

July 26.—Walking along the bank of the Chicago river last evening on my way to Forest park, I was promised to be a pleasant surprise to be a very disagreeable surprise to the conduct of a crowd of men and boys wading in the river, unable to attract attention by their actions, they shouted nasty remarks to passing by.

There has existed throughout the months when this hill is

SURVEY FINDS FLYING IS BECOMING MUCH SAFER FOR CIVILIANS

Washington, D. C., Aug. 6.—(Special.)—The first official statistics gathered by the department of commerce on accidents in commercial flying in this and other countries disclose a remarkable decrease in civilian fatalities proportioned with the number of miles flown.

The figures so far gathered relate entirely to commercial aviation. They show that the percentage of safety on British air lines has increased so much as to lead to lower insurance rates on air traffic than is applied for surface transportation.

Commercial statistics for the United States have been gathered approximately. The aeronautical chamber of commerce estimated that in 1926 there were 75 commercial aviation fatalities. The department of commerce found that commercial planes in that year flew 18,746,640 miles, not counting flights by manufacturers' tests, short routes, and sport competitions, expeditions and other extraordinary flying. The accidents were at the rate of one to every 249,955 miles flown. There were 83 accidents in 1925, and 75 in 1924, with no estimate as to mileage covered.

delegates to designate their preference and whom they are for."

Scouts returning from fishing trips in the northern woods declared that Gov. Smith is stronger in Minnesota than in 1924, when he got half the state's delegates on the first ballot at Madison Square Garden.

Boric Acid Good But Not Enough

We recommend Iris, America's Eye Bath, because we know it is such a vast improvement over the time-honored eyewash of plain boric acid.

Iris contains camphor, menthol, witch-hazel, boric acid, and pure distilled spring water all sterilized and put into sealed sterile flasks.

Iris does three definite things for you. It makes your eyes sparkle and look alive and vigorous. It cleanses the corners, the tear ducts, and under the upper and lower eyelids. It relieves sore and inflamed eyes.

If you will try one bottle of Iris we know you will realize its virtues. All of our stores are instructed to refund your money if you are not thoroughly pleased. Both the 50c and \$1.00 size come complete with handy eyecup. Try Iris today.

Gloves, First Floor, South, State

The August Fur Sale Includes Many Handsome Mink Coats

A large collection of exceedingly handsome Mink Coats is included in the August Fur Sale this year. Wearable, serviceable, and unsurpassed for beauty and elegance, these coats are, like all Field Furs, notable for their quality, their chic, their workmanship. And like our entire Fur collection, they are extremely low in price during this month. Not the least advantage of purchasing here is confidence in making important purchases where the best possible quality has been an achieved aim for many years.

Furs, Sixth Floor, North, Wabash

Custom Apparel Models Reduced

An attractive collection of models, some of them imported, has been very greatly reduced in price, in order to make room for the new fall models. The collection includes smart frocks for day and evening wear, suits, coats, and ensembles.

During August Orders for New Work Accepted at Less Than Regular Prices Custom Apparel, Temporary Location, Seventh Floor, South, Wabash

Juicy ripe peaches sliced and plenty of cream!

Do you know that at Thompson's you can always get delicious fruits in season, the choicest grown. As for cream—the milk and cream served at Thompson's are of the first grade, and come from our own model dairy farms in Wisconsin.

If there's any more luscious fruit than juicy ripe peaches, swimming in cream—well, we haven't heard of it. A big dish of peaches and cream—with a fried ham and egg sandwich, and iced tea—they seem to be the standard lunch these days, judging from the number of orders at Thompson's.

MAYOR WILL TOUR U. S. WITH APPEAL FOR FLOOD RELIEF

Thompson Vows There Will Be No Politics.

Mayor William Hale Thompson announced yesterday that he has agreed to make a tour of the country, seeking to create sentiment in favor of flood control legislation and relief. He plans to start about Sept. 3, and he said his first wish is that it be understood no politics is involved, that his trip is not in the interest of any one for the presidency, but that the sole and only purpose is to aid the Mississippi valley in its hour of need.

Thomas J. Hill, clerk of the New Orleans council, who has been in Chicago for two months as secretary of the flood control conference, suggested to Mayor Thompson the advisability of the tour, and Mayor Thompson said he would devote the month of September to the cause.

Although the itinerary had not been arranged yesterday, Mr. Hill said the mayor would probably speak in the following cities: Minneapolis, St. Louis, Kansas City, Topeka, Omaha, Denver, San Francisco, Los Angeles, Detroit, Cleveland, Pittsburgh, New York City, and Atlanta. He may also speak at Memphis on the way home, Mr. Hill said.

Reasons for Trip Explained.
"Mayor Thompson was on his way down the Mississippi river during the height of the spring flood," Secretary Hill said. "He had arranged a waterway trip to New Orleans in honor of the President's signing of the bill that insures a deep waterway between Chicago and the Gulf of Mexico."

"When he saw the frightful conditions brought about by the overflow of the Mississippi he arranged with Mayor Arthur O'Keefe of New Orleans and Mayor Victor J. Miller of St. Louis to call a flood control conference in Chicago. The conference was held on June 2, 3, and 4, and resolutions were adopted calling upon the national government to make the Mississippi valley safe from future floods."

"A permanent committee was formed with Mayor Thompson as its chairman. He is giving of his time and energy for the benefit of the south. What we hope will be accomplished by his speaking tour is the agreement of all sections of the country to a program of flood prevention."

Support Won in Congress.
A letter has been sent to all members of congress asking for their views on the proposed legislation. Secretary Hill reported that the replies were practically all in favor of the policy worked out during the Chicago conference."

In a letter arranging dates for Mayor Thompson, Secretary Hill called attention to the recent suggestions for flood prevention made by Secretary of Commerce Herbert Hoover. The conference committee thinks the Hoover estimate is inadequate for the needs of the south and it will be one of Mayor Thompson's aims to convince the entire country that the needs are greater than imagined by Secretary Hoover."

It was understood that in his

YELLOWLEY REVOKES LIQUOR PERMITS OF NINE IN DISTRICT

E. C. Yellowley, prohibition administrator, yesterday announced the revocation during the last week of liquor permits held by the following:

Dr. Charles L. McDonnell, 4735 South Western avenue; F. J. Schick, 5453 South Halsted street; William A. Bredenbeck, 2843 Indiana avenue; E. M. Davis Products company, 1303 Carroll street; King & Rudy, Antioch, Ill., and the Foxworth company, 3468 Michigan avenue, Indiana Harbor, Ind. Permits of three other physicians were revoked by consent and their names were not made public.

speeches, Mayor Thompson will assert his "America First" principles, talking of the loans made by this country to Europe and bespeaking for our own country the help given elsewhere. Mention was made in his office yesterday that at the time of the earthquake in Japan twice as much was sent in voluntary contributions from this country to Japan as Secretary Hoover suggested be spent each year in preventing Mississippi river floods.

No desire exists on the part of the flood control conference members to bring about a special session of congress, Secretary Hill said.

Following a quarrel with his wife, Peter Marek, 40 years old, secured an ax early yesterday morning and killed her as she lay in bed at their home, 2044 West 19th street. He then smashed most of the furniture with the same ax and fled, roaming the streets for several hours. Then he returned home and tried to commit suicide with gas. He was revived by police after neighbors, smelling the gas, had notified the department.

On regaining consciousness Marek readily admitted the murder. He told police he and his wife had been saving their money to purchase a home, but that they had quarreled constantly, and he finally decided to put an end to both their lives. A note he had left on the bureau, written in Polish, contained the same information.

REGGAE WITH \$200 IS FINE.
Joseph Geiger, 75, of 567 West Madison street, who had \$200 in his clothes when arrested for being Sunday, was fined \$20 in the South Clark street court yesterday.

Following a quarrel with his wife, Peter Marek, 40 years old, secured an ax early yesterday morning and killed her as she lay in bed at their home, 2044 West 19th street. He then smashed most of the furniture with the same ax and fled, roaming the streets for several hours. Then he returned home and tried to commit suicide with gas. He was revived by police after neighbors, smelling the gas, had notified the department.

CHICAGO SAVANTS UNEARTH STORY OF ANCIENT RACE

ANGORA, Turkey, Aug. 8.—(AP)—Hittite history of some two score centuries ago is being pieced out with pick and shovel by University of Chicago excavators at Alalakh, 300 miles east of here. The Hittites were so powerful that Tut-Ankh-Amen's widow asked the Hittite king to send her one of his sons for a husband, so that he might become Pharaoh of Egypt.

Dr. Hans Henning von Der Osten of the Oriental Institute of the University of Chicago is field director of the expedition. His principal assistants are Frank H. Blackburn and Erich Schmidt.

Much of interest has been discovered. The result is said to confirm strongly the theory of Hittite history and the downfall of the kingdom in the days before Troy was destroyed.

MANDEL BROTHERS MEN'S SHOPS

Big clearance of Men's neckwear

All hand-made

Foulards, twills, crepes in great variety. You will choose several when you see them — especially when you consider that:

In most cases the savings approximate one-half

Also worth your attention:

The Semi-Annual Sale of Manhattan shirts, pajamas, union suits, offers savings of about one-fourth.

First floor, Wabash.

"Some time ago I had a \$30,000 stock of hardware at Champaign, Ill., for sale. I placed a small ad in The Sunday Tribune (one issue only) and I received eleven real live inquiries. Within a week I sold the store to Mr. Emerson of Chicago. Within three weeks Mr. Emerson found that sudden developments in another business in which he was interested required his immediate and entire attention, and he was obliged to dispose of the store. I communicated with others who had answered the aforesaid ad and two parties came at once to investigate the stock, which I sold to one of them, Mr. Rothenberg of Chicago. Therefore, through that one single ad, I sold the big stock of hardware twice in one month's time."

(Signed) E. L. LEWIS, 106 W. Columbia Ave., Champaign, Ill.

\$30,000 Stock of Hardware Sold Twice In a Month by one Tribune Want Ad!

NO matter how big your selling problem, a Tribune Want Ad will help you!

Let us analyze the interesting story which Mr. Lewis of Champaign, Illinois, tells.

He wanted to sell a \$30,000 stock of hardware and, regardless of how often seven-place figures feature in the news these days, \$30,000 is still a lot of money.

Mr. Lewis placed one ad in The Tribune, received eleven live inquiries — and sold the store inside of a week!

Less than three weeks after the sale, unforeseen events compelled the man who bought the store to sell it. From the other inquiries received to the want ad which made the first sale, Mr. Lewis got another buyer!

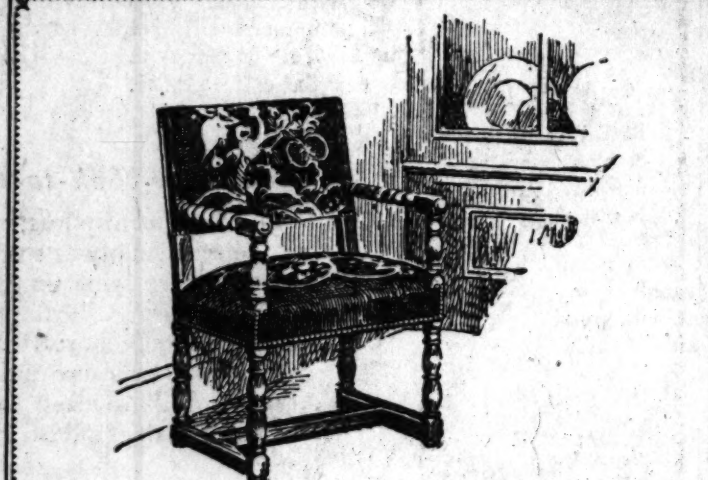

A \$60,000 turnover on a single want ad in one month!

Tribune Want Ads can put the big deals over just as quickly and satisfactorily as the small ones!

If, for one reason or another, you are thinking of disposing of your business, you cannot do it in a surer or quicker way than through the business chances columns of The Tribune's Want Ad Section!

It doesn't matter what the business is — a \$1,000 delicatessen or a \$30,000 hardware store — The Tribune's Want Ad Section offers the most effective way to sell it. Try it now! Place your ad at —

The Want Ad Store
1 South Dearborn Street

The revolt against King Charles

was carried even into a reaction from the ornate carving of the high-backed chairs of the period to low-backed chairs of rugged simplicity.

This type of furniture suited the character of the homes of the Early American period — and still is the most appropriate for dining rooms where good traditions of design must be combined with low prices.

No group of related pieces in the Danersk productions offers wider range for choice than the interesting cupboards, tables and chairs that date back to the first period of American craftsmanship. See them at our salesrooms.

Have Your Furnace Cleaned Now— Prevent Fires!

CLEANING—Prolongs the life of smoke pipe, by keeping it clean. Removes soot from furnace smoke pipe and chimney. Many fires are caused by soot in chimneys and smoke pipe. Coal is wasted as soot acts like an insulator.

INSPECTION—After furnace operates 24 hours daily for over six months, 180 days, dangerous defects often develop, which are Fire Hazards. Inspection brings these to light so they can be corrected.

ADJUSTMENT—Of chains, regulators and dampers, for better and quicker operation will save fuel and work and give you more heat for your money.

The Holland Giant Suction Cleaner cleans all makes of furnaces, hot water and steam plants. It draws out all dirt, dust, soot and ashes and takes the dirt away. The cost is moderate and you can get proper inspection and adjustment of your heating system at the same time.

Write or phone for full particulars, or ask for a Holland representative to call at your convenience, day or night. He will refer you to thousands of users, many in your neighborhood.

COOLIDGE MEN EXASPERATED BY DAWES ATTACK

Resent His Criticism of Work at Geneva.

(Chicago Tribune Press Service.)
Washington, D. C., Aug. 8.—[Special.]—Remarks by Vice President Charles G. Dawes in his address yesterday at the dedication of the international peace bridge at Buffalo caused speculation today as to their possible political significance.

References by Mr. Dawes to the failure of the Geneva naval conference were regarded by administration officials as somewhat in criticism of the work of the American delegation. State department officials are understood to resent Mr. Dawes' suggestion that there may have been sufficient preliminary preparation and that the attitude assumed by the conference may not have been productive of the best results.

Dawes Out of Sympathy.
With Mr. Dawes listed as one of the prominent possible candidates for the Republican presidential nomination, political observers were disposed to attach considerable significance to his address. His declaration on the subject of the Geneva conference was regarded as emphasizing his lack of complete sympathy with the Coolidge administration as evidenced in the controversy over farm relief legislation and in other matters.

The Dawes speech appears to have made it increasingly certain that he cannot count upon support from persons closely identified with the Coolidge administration.

Administration officials do not anticipate that Mr. Dawes will be an active seeker after delegates to the national convention while Frank O. Lowden is in the field. They do expect him, however, to have his lightning rod up in case the agricultural and other groups which are dissatisfied with Mr. Coolidge find themselves unable to bring about Lowden's nomination.

Expected to Court Limelight.
There is an expectation that Mr. Dawes will lose no opportunity to make addresses on various occasions and that he will be considerably in the limelight during the coming winter. It is understood that he plans to renew his effort to obtain a revision of Senate rules as soon as Congress convenes in December.

Mr. Dawes is also expected to figure conspicuously in the renewal of the attempt to obtain the passage of the McNary-Haugen farm relief bill. He presided over conferences last winter.

WAR DEPARTMENT MEN EXPECT SOON TO HAVE GIANT BOMBING PLANE

Washington, D. C., Aug. 8.—[Special.]—Following a series of special service tests of the three giant bombing planes recently completed in the east for the army air corps, the war department will arrange for the construction of a new plane embodying the best features of the trio of air dreadnaughts, it was announced here today at the war department.

The new model plane, if it comes up to the desired standard, will be designed to meet the purposes of the army air expansion bill, under the provisions of which the air corps is entitled to 160 bombing planes at the end of five years.

More than a hundred planes of the new model will be purchased if the new plane proves successful.

The army air corps at present has what is considered the best types of pursuit and observation planes in the world. According to air officers, however, the bombing plane has been the weak spot.

The three new bombers were constructed by the Keystone Aircraft corporation of Bristol, Pa., the Atlantic Aircraft corporation, makers of the Fokker planes, at Hasbrouck Heights, N. J., and the Curtis Aircraft corporation at Garden City, Long Island.

In which a compromise between western and southern senators was brought about, making possible the passage of the measure later vetoed by President Coolidge.

G. O. P. WELL SET IN FUNDS, MEN, TREASURER SAYS

BY PHILIP KINSLEY.
(Chicago Tribune Press Service.)

Rapid City, S. D., Aug. 8.—[Special.]—Although President Coolidge has seen fit to withdraw as the leader in the 1928 campaign, the Republican party, because of his leadership, is able to stand the task of selecting a nominee and electing another president, according to William V. Hodges, treasurer of the Republican National committee, who was the guest of the President today.

While refusing to comment on the withdrawal of Mr. Coolidge from the presidential race, Mr. Hodges seemed imbued with the idea which the President holds, that there is plenty of available material in the party and that the way is clear.

G. O. P. Has Ample Funds.

The finances of the party are in good shape, he said. There has been no deficit, and the organization enters the campaign with sufficient funds on hand.

"My one reaction to this situation," he said, "is that the party is sufficiently entrenched because of the Coolidge leadership to be able to stand the task of selecting a nominee and electing the next president."

The business situation is good and on a firm foundation, he said. Mr. Hodges expressed no preference

for the next Republican convention city, although he comes from Denver, which is always a bidder. The western people, he said, would be glad to see the convention go to San Francisco and he left no doubt as to the nature of the campaign which the representatives of the Golden Gate city are putting on.

Wilbur Guest of Coolidge.

Secretary of the Navy Wilbur arrived at the summer White House in time for luncheon and is to remain until tomorrow. He had no comment to make today on the naval situation as affected by the Geneva conference failure.

That the navy building program will be increased, without entering a competitive race with other countries, seems to be taken for granted here. The program of Great Britain calls for 640,000 tons of cruisers. The United States has at present two 10,000 ton cruisers building, and six authorized but unappropriated for. It is felt that congress will undoubtedly appropriate for these six and perhaps a dozen more.

Speaker Longworth of the house, a big navy man, who won the house against the President at the last session, might find his political fortunes, as a possible nominee of the party, increased by this navy building program. The \$200,000,000 tax reduction plan of Senator Smoot may suffer as a result, but this estimate of possible reduction is regarded as extremely conservative.

GERMANY SELLS RAIL STOCKS TO PAY WAR LOSERS

(Chicago Tribune Press Service.)

BERLIN, Aug. 8.—Germany will sell \$250,000,000 worth of preferred shares of railway stock created under the Dawes plan to indemnify the Germans who incurred damages or had their property liquidated in the war or by the Versailles treaty. The introduction of this law into the reichstag puts an end to the long discussions between the treasury and reparations agents.

These are the same shares which it was proposed last fall at the Thoiry conference to give to France as compensation for the Rhineland evacuation. As a result of the sale, the German railways will take on a purely private character.

Only damage claims of less than \$500 will be paid in full; the others will get 12 to 50 cents on the dollar, according to the size of their claims.

Report Decried Drafted for Spanish National Assembly

SAN SEBASTIAN, Spain, Aug. 8.—(AP)—Authoritative reports from Madrid say a decree convoking the proposed national assembly has been drafted and will be taken by Premier Primo de Rivera to Santander for the king's signature on Wednesday, when a cabinet council is to be held there.

FRECKLES
Tells How to Get Rid of These Ugly Spots and Have a Beautiful Complexion

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these honeyed spots. Simply get an ounce of Othine from any drug or department store and apply a little at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful complexion.

Be sure to ask for the double strength Othine, as this is sold under guarantee of money back if it fails to remove your freckles.

Othine Lab., Buffalo, N. Y.

MARSHALL FIELD & COMPANY

A MIDSUMMER SELLING OF LINENS

In this timely August event are a great many splendid values. The few shown here are typical of the scores you may choose from. Here are towels, breakfast sets, luncheon sets and filet scarfs at surprisingly low prices. Some you will want for your own home. Others will make delightful prizes. And you will find here articles so attractive that you will want to buy them now for future use.

The Linen Section—Second Floor, North, State

TOWELS

Double thread Turkish Towels, 23x45, with borders of blue, pink, lavender, gold or green are \$5.40 dozen.

Heavy double thread Turkish Bath Towels, 22x44, with blue, pink or orange borders, are \$3.75 a dozen.

Hemstitched linen Huck Towels, 18x32, with damask borders, are an exceptional value at \$5 a dozen.

Hemstitched linen Huck Towels, 18x34, with medallion for monogram and damask border, \$6 a dozen.

Heavy linen Crash with a small red or blue border is soft and absorbent, and a perfect fabric for dish or roller towels. Too, it will wear well. During this selling it is priced unusually low at 25c a yard.

BREAKFAST SETS

Breakfast Sets of hemstitched linen damask have a cloth 52x52 inches and six napkins that are 14x14 inches. These popular sets have been reduced in price for this selling and are now offered for but \$3.75 each.

LUNCHEON SETS

Florentine embroidered 13-piece Luncheon Sets have one runner, six oblong doilies and six napkins. The special price for this selling is \$6.45; very much lower than is regularly charged for this quality.

FILET SCARFS

Filet trimmed Scarfs, with filet motifs, cutwork and embroidery, and made by hand: 18x36 inches, \$5.75; 18x45, \$7.25; 18x54, \$8.75; 18x63, \$10.25; 18x72, \$11.75. The prices are very low.

The image is a dark, grainy, black and white scan, likely of a document page. It features a prominent horizontal band of lighter, textured material across the center, which appears to be the main body of the document. The top and bottom edges are dark and indistinct, suggesting the edges of the scanned page or the scanner bed. The overall quality is poor, with significant noise and low contrast.

YOU CAN'T

Warsaw, Ind., Aug. 8.—[Special.]—O. E. Barnhart of Chicago, by defeating E. L. Vanderipe of Bradentown, Fla., 32 to 26, today increased his lead over his nearest competitor in the national roque tournament at Winona Lake.

Barnhart has played seven games, and his only defeat has been by W. W. Wilson of Chicago, 1924 national champion, 32 to 23. His average for the seven games is 30.6-7.

FROST REPORTS SEND WHEAT UP; CORN ALSO SOARS

BY CHARLES MICHAELS.

Frost in parts of Saskatchewan with temperatures as low as 22 has possibly ruined the grain crop in the sections affected and added millions of dollars to the prospective income of American farmers.

Wheat at the high point showed 54¢ 5/8 on the finish on Saturday, with December up to 54 1/2¢, while corn jumped 35¢, oats 25¢, and rye 14¢, with all deliveries of corn and December and March oats selling at a new high for the season. December corn touched 51 1/2¢ and March 51 1/4¢, while December oats were up to 34¢ at the top. The finish was 2¢ net gain of 48¢ for wheat, with September 51 1/4¢, 1 1/2¢, or to under December, with corn 25¢ 3/4¢ higher, September being 51 1/4¢, 1 1/2¢, or to under the deferred future. Oats gained 30¢, and rye 35¢ 1/4¢.

Big Trade in Wheat.

News about the frost reports attracted little attention, and individual operations counted for little. There was heavy short covering and also aggressive commission house buying, and each upward carried price into new ground on the present movement, the reactions being due largely to short covering and to selling against offers. Stop loss orders were uncovered on the way up.

One point in North Dakota reported killing frost, with the forecast for frost tonight in lowlands in eastern North Dakota and northern Minnesota, and there is danger of frost in Manitoba and Saskatchewan. An increase of 3,000,000 bu in the domestic visible was without effect as a market factor. Total is now 43,147,000 bu, against 41,104,000 bu last year. No export sales were reported at the seaboard, the bulge in futures checking business.

While no frost was reported in the corn belt, the forecast was for cooler weather and with a bullish summary on conditions in seven Illinois counties by Crop Observer B. W. Snow more than offset the effect of good rains in parts of Iowa, Illinois, Indiana, and other states.

Whisper Oats Up Sharply.

Frost has damaged the Canadian oats crop to some extent, and Winnipeg responded with an advance of 5¢ 3/4 on Saturday and closed 35¢ 3/4 higher. There was no pressure on the local market and investment buying readily absorbed profit taking sales. Crop comments from the American northwest continue bullish, the yield promising to be small as the result of heat and rust damage. Action of wheat was the main factor in making the upturn in rye. The northwest sold on the bulge.

Merger Is Under Way of Indiana Stone Companies

Indianapolis, Ind., Aug. 8.—(Special.)—The George M. Foreman company, Chicago investment bankers, is behind a movement to consolidate all remaining independent Indiana limestone companies of the Blooming-Bedford district into a second merged corporation, the value of whose holdings will exceed \$10,000,000, it was disclosed tonight by H. C. Webb of Indianapolis, president of the Indianapolis Limestone Stone company. Approximately thirty companies operating in the district are independent corporations, which were not included in the merger completed about two years ago of twenty-four large companies.

Conference held with independent stone companies heads thus far have drawn consent of about twenty companies to enter the merger, Webb said, and the Foreman company expects to have the merger fully developed in thirty or sixty days.

PRODUCE MARKETS

Spot butter in good demand locally and prices advanced. Receipts 15,000 lbs. Demand was fairly good. Eastern markets much firmer. Chicago milk at full price. Fresh eggs in moderate demand with prices unchanged. Receipts 18,814 cases. Live poultry showed little change. Receipts 5 cars and 350 coops.

Poultry steady to a shade easier. Demand good, but offset by liberal arrivals. Receipts 147 cars with 574 cars on track.

CASH GRAIN NEWS

Butler in futures checked export demand for grain and no sales of consequence were reported at the seaboard. A few scattered bushels of wheat were sold, Chicago handlers said 50,000 bu wheat and 20,000 bu barley to the seaboard for export.

Domestic shipping sales here were 42,000 bu corn, 10,000 bu oats and 10,000 bu barley, with 100,000 bu wheat and 100,000 bu oats to go to sea.

Exchanges were good buyers of cash wheat here, with the basis steady to a shade easier. No. 1 red and hard winter sold at September price to 1¢ under; No. 2 red, 1¢ under; No. 3 red, 1¢ under; No. 4 red, 1¢ under; No. 5 red, 1¢ under; No. 6 red, 1¢ under; No. 7 red, 1¢ under; No. 8 red, 1¢ under; They Wouldn't Believe

By Roy Vickers

STORY.

On the way to Donald Brierley's house for luncheon Connie Elmore, Donald's fiancée, was told by a woman who had just left the house that she had seen a man who looked like her father, but who she did not know. She was told that the man was in the house and that he was in the room where she was sitting. She was told that the man was in the room where she was sitting and that he was in the room where she was sitting. She was told that the man was in the room where she was sitting and that he was in the room where she was sitting.

INSTALLMENT XXXIX.

A SYMBOL OF REVERENCE.

She turned to the window, as though something in the street below attracted her attention, but her eyes were closed. "Hard as nails!"—and hard as the hardest thing in the world. And if you weren't as hard as nails, you wouldn't be a woman. And if you weren't as hard as nails, you wouldn't be a woman. And if you weren't as hard as nails, you wouldn't be a woman.

MAE'S BACK AND RIGHT AWAY SHE FINDS A SNAPPY MOVIE

Produced by Fox. Directed by John Griffith Wray. Presented at Castle and neighborhood theaters.

Young Thief.....Douglas MacLean
Blondie.....Blanche Sweet
Boss.....Warner Baxter
Fat Thief.....Russell Powell
Lean Thief.....Frank Leigh
Police Judge.....Wade Boteler
Notary.....Nigel de Bruiler
Master.....Albert Prisco
Chief Constable.....Rex E. Carroll
Sultan.....Albert Grau
Foolish.....Fred Kelsey
Climax.....Harry Jones

"SOFT CUSHIONS"

Produced by Paramount. Directed by Eddie Kline. Presented at the Oriental theater.

Young Thief.....Douglas MacLean
Blondie.....Blanche Sweet
Boss.....Warner Baxter
Fat Thief.....Russell Powell
Lean Thief.....Frank Leigh
Police Judge.....Wade Boteler
Notary.....Nigel de Bruiler
Master.....Albert Prisco
Chief Constable.....Rex E. Carroll
Sultan.....Albert Grau
Foolish.....Fred Kelsey
Climax.....Harry Jones

"SOFT CUSHIONS" Foolish But Brims with Action

Relying on simple, childlike faith on the knowledge that the Oriental usually opens late of a Monday morning, I got there about twenty minutes past eleven to discover the feature picture going full blast. So—can't tell you just how young Thief and Blondie the son of a man who owns much of the country thereabouts and rents saddle horses in the summer to the little human with a thousand peaceful voices a reminder of the folly and futility and worry. You just CAN'T stave around in the summer. At least I can't. I lay up contentment like a cat the whipping cream.

"Soft Cushions" Foolish But Brims with Action

YOU AND YOUR CHILDREN

Even the Cabird.

A cabird lives in our hedge of dog-wood, sassafras, alder bushes, and young oak under the big beech tree. She has one baby who, at the time of writing, looks well able to take care of herself. It is such a great big husky baby that until I saw its short tail and deep cut yellow mouth, I thought it was the male.

You should see the devotion of that mother. We remembered from last year that she liked butter, so we put some on a saucer on the rail of the porch for her. Countless times a day she came almost up to my elbow as I write, and carries away butter to her baby, who sits near by and opens up her yellow bill and keeps it open in that funny way that young birds have, as if they were going to take no chances on mother missing her aim!

Once in a while the mother bird will take a nip or two for herself, but rarely, before she loads up her bill for her child. Sometimes the big baby flies a little distance uncertainly from branch to branch in the hedge, but apparently there is no evidence that the mother will relax her

Beauty Answers

BY ANTONETTE DONNELLY. SHORTLY, YOU HAVE ACQUIRED your full height. Games that require stretching and high reaches, such as basketball and tennis, are advised for increasing the height, although no guarantee goes with it.

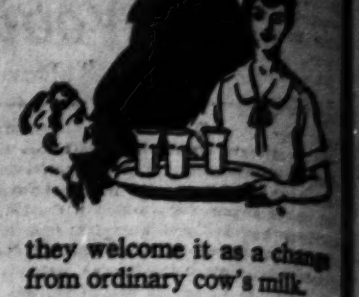

R. M. H.: THE FOLLOWING tonics will relieve an itching scalp and is helpful if the scalp is dry: Carbolic acid, one dram; salicylic acid, three drams; castor oil, three ounces; alcohol, six ounces. Massage it into the scalp at night.

Please your family with this delightful table drink to-night

As an enjoyable change serve Horlick's Malted Milk ice cold for dinner.

Not only is it a delicious summer beverage, but it is rich in easily digested nourishment. Thousands now serve it regularly at meal time.

Children especially love it. They get from it all the food values of full-cream cow's milk plus the valuable elements of malted grains. And

Physicians have recognized the purity and wholesome-ness of "Horlick's"—the original and genuine—for over a third of a century.

Mrs. Donald Returns with Her

BY NANCY

After a prolonged absence from the city, Mrs. Donald returned yesterday with her family. She was accompanied by her husband and two children. The family was seen leaving the airport in a motor car. Mrs. Donald is expected to remain in the city for some time.

Shelby Little (Mr. Little) has a new book, "The Change Book," which is a collection of stories and poems. It is published by the Chicago Book Company. The book is available at a special price of \$1.00. It is a must-read for anyone interested in literature.

The gay red and white book bears the signature of the author, Dick Little. It is a collection of stories and poems. It is published by the Chicago Book Company. The book is available at a special price of \$1.00. It is a must-read for anyone interested in literature.

Engagement Ring Taken Too Lightly, Says Correspondent

BY DORIS BLAKE.

The question of the engaged person seeking the company of other than fiancé or fiancée comes up frequently in this department.

One signing himself "You're for Better Women" thinks a girl has enough to do keeping herself a "hit" with the man she hopes to marry without trying to outshine other young men. "His" company should be satisfying enough.

A girl who is inclined to want the attention of men, he contends, when she is engaged or in love will not change after she is married, and a woman with boy friends is not to be trusted.

"I have no objection to a girl being pleasant and genial in a casual way with men acquaintances—but cannot see any point in her going out of her way to attract them. In the light of modern ways and viewpoints, a girl when she becomes engaged doesn't feel as though she has signed away her independence. With any number of young women an engagement is entered into no lightly that the idea of being expected to adapt her needs for entertainment to one man appears preposterous. All of which would be fair enough except that it is this type of girl who raises the worst fuss when her fiancé is seen about frequently. In female company not her own I have seen it work out so many, many times that I wonder man commences among themselves on the unreasonable of the creature."

One of the worst coquettes I know sought my shoulder to weep tears and bitter recriminations about her fiancé of her own treatment. "He isn't playing fair," she cried. "He is embarrassing me by paying me such attention to that natty blonde."

There is a definite relationship between the sexes nowadays, and the old hidebound conventions of seeing none but your man is difficult of application. Men are responsible, somewhat, for this change, too, because they do like to be felt that their girl is popular and the girl senses that and often plays her little game of gathering a coterie of admirers around her just to prove to her fiancé he is getting a most desirable female. It does seem to me, though, that in management period, being a trial period, might be better employed getting thoroughly acquainted with the one from whom the diamond comes, since there is a long lifetime ahead when his and only his companionship will be permitted her. That is, if he's the kind of man that is going to hold her.

DORIS BLAKE ANSWERS

Lovers' Confidence.

"Dear Miss Blake: My boy friend suddenly stopped speaking to me. He gives me his reasons that he heard something. I am at a loss what to do or think."

"I think you are well rid of a chap who will believe your ears to hear what he is saying. He should have more confidence in you, dear."

No Future There.

"Dear Miss Blake: I love a fellow so much that I love him but he doesn't make a living wage and can't anticipate the future. Do you think it advisable to be patient a year or two?"

"Not with a chap who hasn't any hopes for the future. His love for you should fire his ambition and make him do big things, that he may provide a home for you sometime for his own. 'Tis time to wait, dear."

A FRIEND IN NEED

BY SALLY JOY BROWN.
Attention, Engineers!

"I would like to ask your readers for a book of poems on automotive or electrical engineering. I would like to learn more about this, but cannot buy the books."

"Engineers, out where the tall corn grows is this boy who'd like to know more about your profession. Have you a volume or two on the subject to enlighten him?"

"The home of the G. family was crowded, even before the arrival of the baby sister, Rosita. There are only two beds for the five children, so we are making a cot for the baby. Would be time wasted?"

"Being so crowded must be most uncomfortable on some of these hot nights. Have you the cot which is going to help keep the G. children healthy by giving them the rest they need?"

Never a Traitor— Double Faced Crepe

BY CORINNE LEWIS.

NEW YORK.—[Special Correspondence.]—The nice thing about this double-faced material, satin-back crepe, is that it never deceives us. We know it will always be fashionable, and we know it will demand practically no trimming from us. In fact, there is no more dependable fabric than this same satin crepe, and one of its added recommendations is that it is worn with equal fervor both winter and summer.

Here is one of the most charming of models of this material now to be found. It makes the bolero, the fitted bodice and the piece just above the skirt of the lustrous surface and contrasts these with a skirt graced on the crepe side with a simple band showing just under the bolero. The one touch of extraneous trimming consists of two white roses placed on the shoulder.

The Vogue of satin back crepe is now greater than ever before and one sees this evidenced in the pastel-tinted jumper costumes of semi-formal sports type. The two surfaces are especially well adapted to the employment of these bands that do so much to give variety to the summer's jumper. The one lovely model worn by a woman at Southampton showed a plaited skirt of mauve crepe satin done in the dull surface and banded at the hem in the lustrous surface. Similarly, the matching crepe jumper displayed horizontal bands of the satin side.

Bright Sayings
of the Children

"The Tribune will pay \$5 for each child's letter printed. The story told must have been printed in any newspaper or paper. It is not possible to acknowledge or return unsolicited contributions. Write on one side of the paper. Address: Bright Sayings to Aunt Sue, The Tribune, Chicago."

"A few days after our new neighbor moved in she surprised us by practicing some vocal exercises. Soon we became acquainted, and after exchanging greetings, my 5 year old Billy piped up: 'I heard you tuning your voice this morning.'"

"Jimmie, aged 3 1/2, is fond of ginger ale. One evening he was given a glass of very fizzy ale. He tried to drink it and then placed it on the table."

"'I'll just put it there until it gets quiet,' he said."

"The home of the G. family was crowded, even before the arrival of the baby sister, Rosita. There are only two beds for the five children, so we are making a cot for the baby. Would be time wasted?"

"Being so crowded must be most uncomfortable on some of these hot nights. Have you the cot which is going to help keep the G. children healthy by giving them the rest they need?"

"The home of the G. family was crowded, even before the arrival of the baby sister, Rosita. There are only two beds for the five children, so we are making a cot for the baby. Would be time wasted?"

Marvin Hughitt Celebrates 90th Birthday Today—Army Chief of Staff Reviews National Guard

MARVIN HUGHITT IS 90 YEARS OLD TODAY. The former president of the Chicago and Northwestern railway as he appeared yesterday. He will be given dinner tonight. (Story on page 6.)

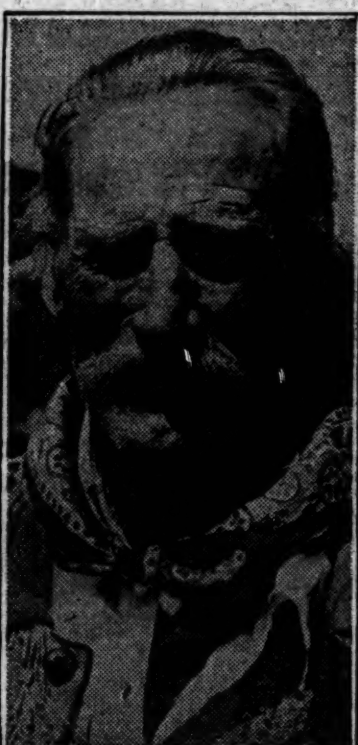

ARMY CHIEF OF STAFF REVIEWS ILLINOIS NATIONAL GUARD. Left to right, at Camp Grant yesterday: Maj. Gen. William Lassiter, Maj. Gen. Charles P. Summerall, chief of staff; Maj. Gen. Roy D. Keehn, commander of 33rd division, and Maj. Gen. Milton J. Foreman. (Story on page 1.)

KILLED BY TRAIN. Hildur Mills, 14-year-old Winnetka schoolgirl. (Story on page 7.)

COOLIDGE CROWNED "LEADING EAGLE" OF SIOUX. President with Princess Rosebud Yellow Robe after tribal ceremony recently at Deadwood, S. D. (Story on page 4.)

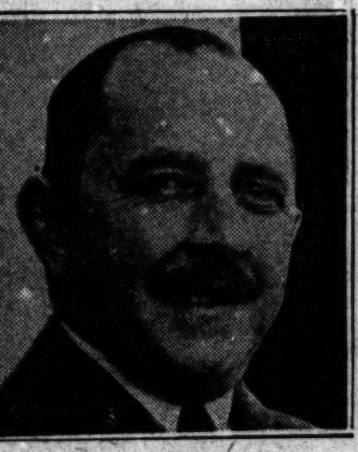

DEADWOOD DICK. Original frontiersman as he appeared at "Days of '76" pageant. (Story on page 6.)

INDIANS WELCOME PRESIDENT COOLIDGE AS FATHER OF TRIBE. Princess Rosebud Yellow Robe of Sioux placing head dress on chief executive's head at Deadwood, S. D., as Mrs. Coolidge and members of tribe look on. (Story on page 4.)

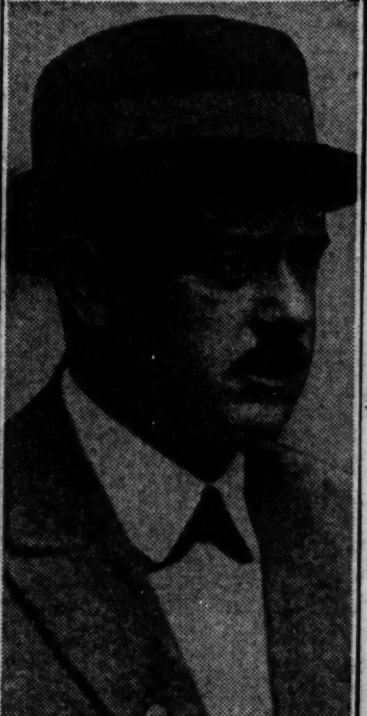

BABIES THRIVE ON COUNTY JAIL MENU. Miss Katherine Smith, matron, holding Josephy Martin Jr. (left) and Alfred Borg, whose relatives are in institution. (Story on page 6.)

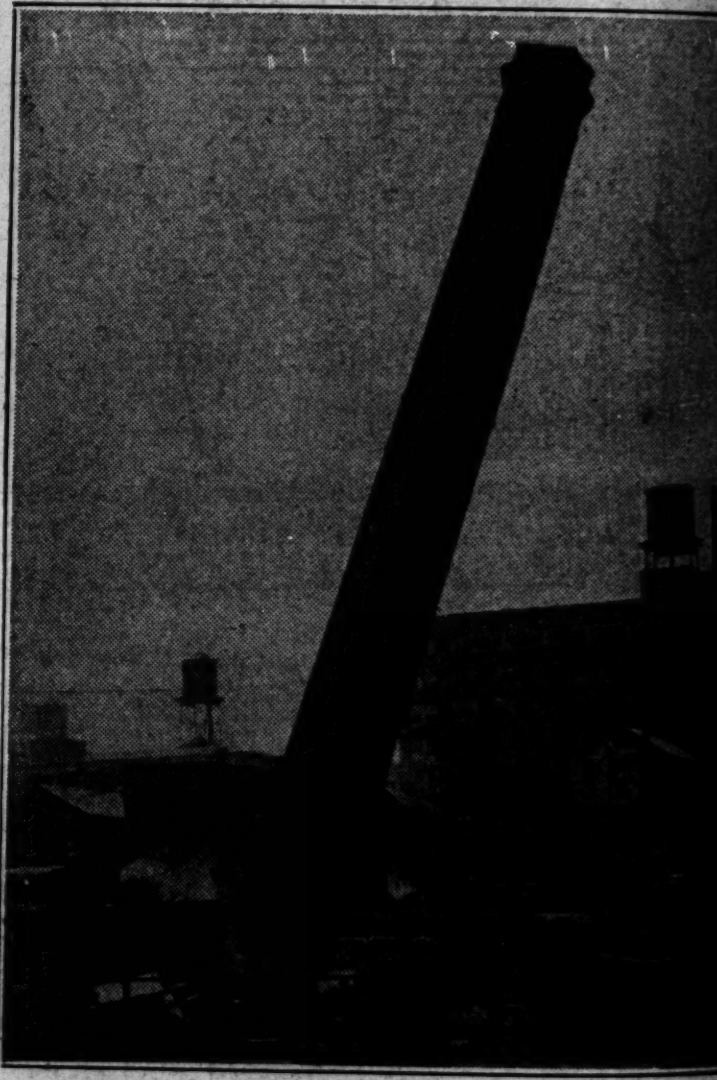

HURT IN CRASH. Count Laszlo Szechenyi, husband of Gladys Vanderbilt. (Story on page 7.)

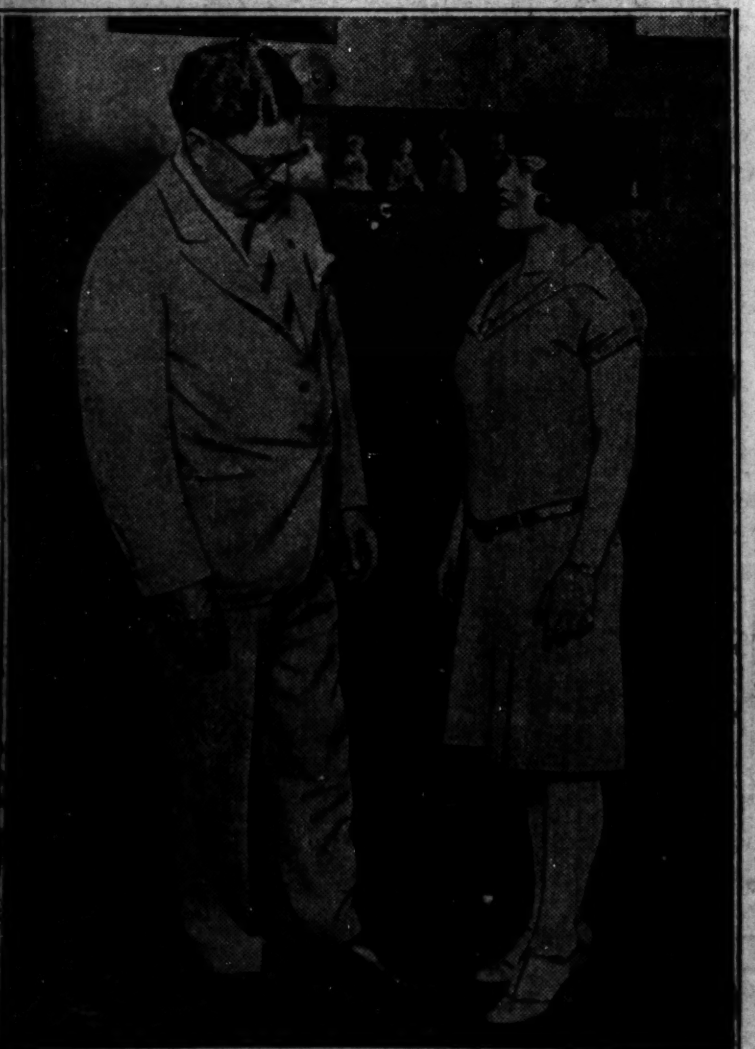

YOUTH DENIES ROMANCE WITH PRINCESS ILEANA. Newland Knight, former Culver cadet, in auto with princess. Knight revived Ileana when she fainted and has been praised by Queen Marie. (Story on page 5.)

DIES. A. T. Walker, who inherited \$20,000,000 from late Edward F. Searles. (Story on page 26.)

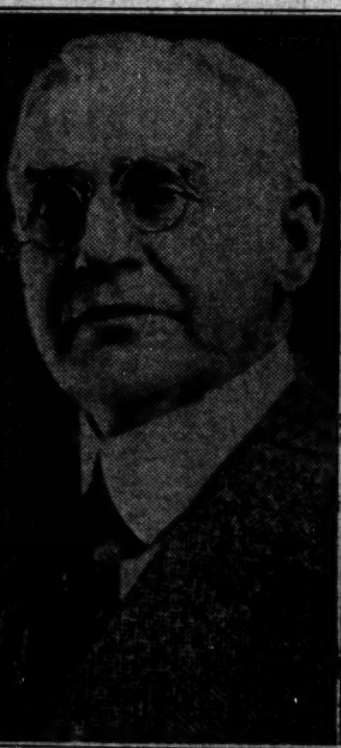

WRECK CHIMNEY WHICH SURVIVED CHICAGO FIRE. Smokestack at Kroeschell Boiler works, Townsend and Erie streets, as it started downward yesterday. (Story on page 4.)

BUNDESEN SAYS SCANTY CLOTHES MEAN GOOD HEALTH. Commissioner approving costume worn by Esther Sterling. His health advice is to wear as little as possible and wear the sun's ultra-violet rays. (Story on page 27.)

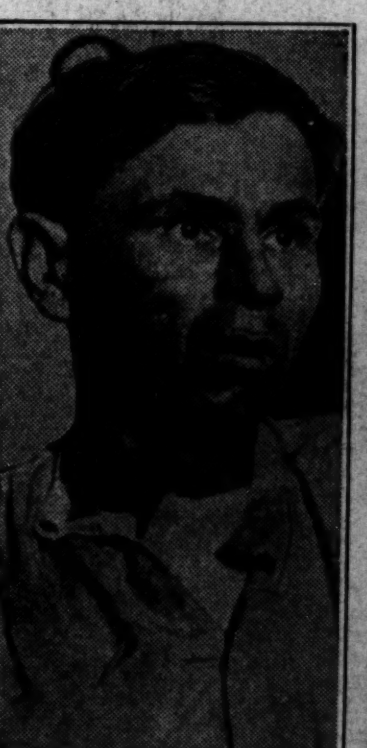

MOVIE STAR HERE. Billy Dove arriving on Chicago and Northwestern yesterday. (Story on page 22.)

CHICAGO ATTORNEY WEDS MUSICIAN. George H. White, 76, and his bride, the former Mrs. Minnie Kindig, 49, also of Chicago. They were married in Laporte, Ind. (Story on page 16.)

KILLS HIS WIFE. Peter Marek, who, after slaying mate, tried to end own life. (Story on page 12.)

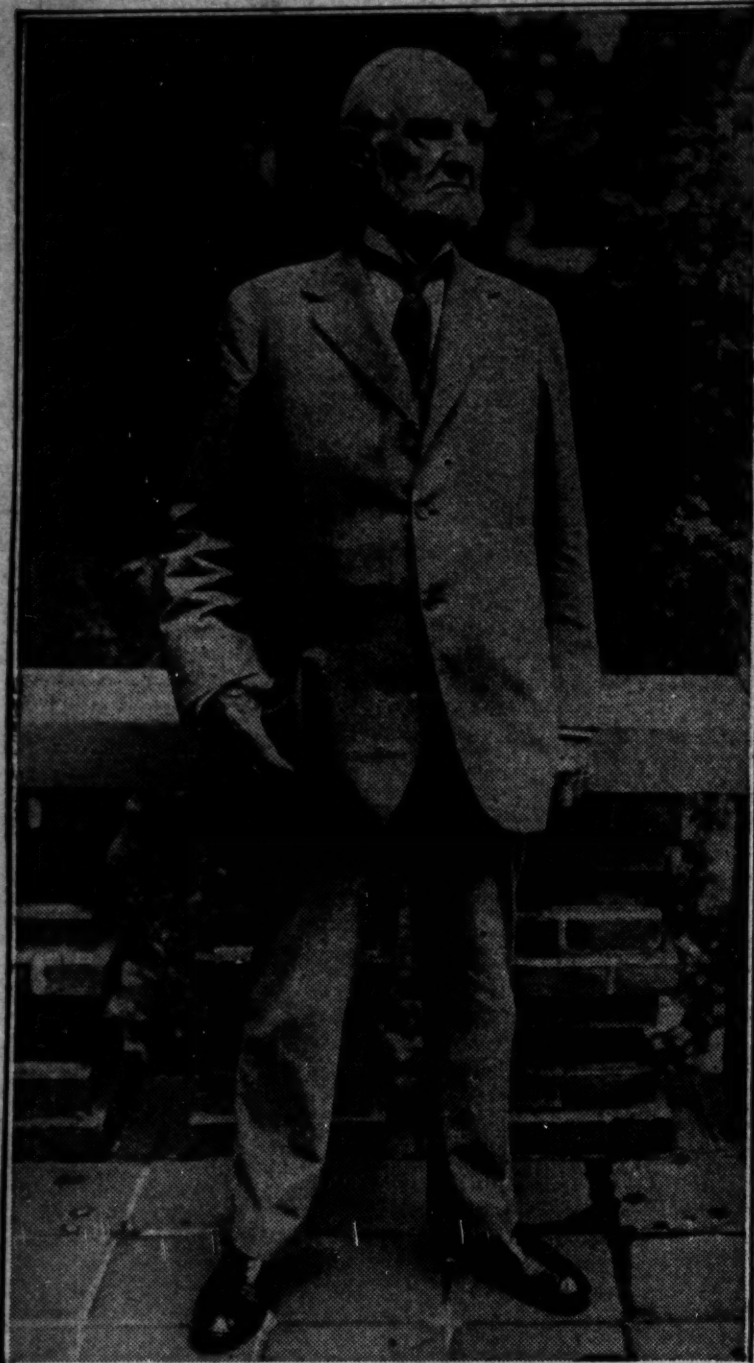

OPERA STAR HERE FOR RAVINIA DEBUT. Mary Lewis and her bridegroom, Michael Bohnen, leading bass, as they appeared upon arrival from New York on Central yesterday. (Story on page 23.)
